A pipeline progress report

The federal coordinator for Alaska's plan to ship natural gas provides an update

Larry Persily serves as the federal coordinator for an Alaska North Slope natural gas pipeline. In this role, he shares information with policy makers and the public on natural gas projects while the agency waits to help

manage the work of federal permitting agencies for an Alaska gas line.

Before accepting the presidential appointment as the pipeline coordinator in 2010, Persily worked for more than a decade on Alaska oil and gas issues for three governors and the Legislature. He was deputy commissioner for the Alaska Department of Revenue from 1999 to 2003, and later served in the governor's Washington, D.C. office.

Before joining government, Persily worked as a journalist in Alaska for more than 20 years.

Vocational Service Awards honor ideal of service

Some highlights from last week's meeting:

- Ruth Heese, Sally Smith, and Armando DeGuzman led the Vocational Service awards presentation. Each of the recipients exemplifies Rotary's ideal of serving society through one's vocation. We welcomed representatives from AWARE's Girls on the Run program, Candy Behrends of Behrends Mechanical, and Provost Richard Caulfield and a student representative from the University of Alaska Southeast's Center for Mine Training. Individual recipient Pastor Tari Stage-Harvey of Shepherd of the Valley Lutheran Church was unable to attend the meeting. She'll be honored at a later date.
- The wheelchair delivery for Colima, Mexico will take place Feb. 16-22, 2014. Please contact Warren Russell at wjrussell@gci.com if you are interested in participating in this rewarding humanitarian effort. Space is limited, so please respond soon if you are interested.

- The Foundation Auction is set for Nov. 19. Grab bag sales start next week and are a fun and easy way to satisfy your Foundation commitment.
