ROTARY SCOOP

President Heidi

Calling all Past Presidents and fellow Rotarians.

We need your help to plan our 30th year celebration of our club. We are working with Bob Tomko, our founder, to plan this exciting event in either April or May.

It will be a fun dinner to review all the wonderful activities and years of Rotary Service.

Contact Heidi if you want to be on this committee.

PROGRAM Jan 6th Greg Norby MCWD

Greg gave us a good understanding of the new solar project down at the Water District which will provide a good part of the energy needed to operate their facilities. It will be paid off in 9 years, with a life expectancy of 20 to 30 years. It seems a good move for the District and it's customers, and shows leadership in local energy generation. In the photo above, Greg is making a point (and not yet declaring "victory"). And our club was involved by our giving up our storage space for our storage container on the site where the panels are being erected. Another very interesting program!

UPCOMING PROGRAMS

Jan. 13 – Rich Boccia will speak about the Education Foundation

Jan. 20 – Lynda Roberts will give a talk about the County Clerk's job and the election process

Jan. 27 – Dr. John House from the House Ear Institute will speak on hearing issues

Don't miss these luncheon presentations; they continue to be very timely and incredibly informative!
