

Meet Meisha Rouser

Introduction by Gerry Maurer

Fellow Rotarians, it is my pleasure to introduce Meisha Rouser, our newest member.

Meisha's classification is Consulting. With the Nofsinger Group, she works with top level executives. I asked her "how do you end up consulting in the C-Suite?"

For Meisha the path began in Southern Arizona where she became the first person in her family to graduate from High School. She worked 3 jobs to put herself through the University of Arizona, followed by a Masters at Antioch and is currently pursuing her Ph.D. in Leadership Studies through Gonzaga.

Meisha worked in the Bay Area as a consultant, instructing in IT program management and marketing. This is where she recognized her passion for teaching. In 2001, she moved to Kitsap County. There she joined the North Kitsap Rotary club, became President and has been active on the District level.

Meisha established a boutique real estate firm that used the web to capture migrating high net worth executives. In 2005 she transitioned to coaching C-suite execs, their teams, and companies in leadership and organizational development. In 2016 she merged her consulting practice with the Nofsinger Group.

Meisha and Jeff will become empty nesters this fall. Garrett was accepted to West Point but decided on Harvard. Daughter Cammy will leave this summer for the Naval Academy.

In case you think that all Meisha does is study and talk to people in corner offices, she and Jeff have a keen interest in the outdoors. Every year on her birthday, they go to the North end of Vancouver Island where they launch kayaks and spend time observing the pods of Orcas and some nomads.

Meisha was introduced to us by Jan Levy and Kim Moore. Please help President Cathy welcome Meisha to Seattle 4.
