**MORE BIG FANCY WORDS!** 

## Plantar Fasciitis ... It's Very Painful

From nosebleed to heel pain or to use the Good Doctor's big words—Plantar Fasciitis; this week's topic for the *Health for Self* tip. Getting old is no joke and with age comes ailments, such as Plantar Fasciitis, which peaks between the ages of 40 and 60 (once again our club members are the prime target). Plantar Fasciitis accounts for one million visits to the doctor per year. Typically the symptoms are worse in the morning and the first steps out of bed are the worst; pain goes away as the day progresses.

How do you treat Plantar Fasciitis? — Rest from standing, running and jumping; ice your heels at the end of the day or an activity and stretching the Plantar Fascia, which is the fibrous band from the heel to the toes. To stretch the Plantar Fascia—sit with your legs crossed, pull your toes back to ankle/shin and hold for 10 seconds. To prevent Plantar Fasciitis — try arch support orthotics, avoid standing barefoot, stay in shape, and the best prevention of all ...treat yourself to new shoes!

### "Spirit of International Service"

Sunrise Rotarians Michelle and Craig Foster Share Personal Stories About Their International Trips to Peru and Zambia

International service in Rotary has really impacted Michelle and Craig Foster personally. Before Rotary...the only international experience they had was taking two cruises. It was Dick Strayer who quickly got Simi Sunrise involved in international service; their first project was a reverse grant to build Camp Rotary in Simi Valley. An

**Proud to Serve Internationally** 

"Aha Moment" ... meeting thousands of like minded people at the International Convention.

Craig's first international service trip was to Peru. He traveled with a fellow Rotarian who spoke six languages and he assumed Spanish was one of them ... not so—they instead relied on an English/Spanish dictionary to communicate. The club ended up with five matching grants in Peru ... for Craig it was a great opportunity for fellowship.

It was Michelle's son who convinced her to participate in an international service project in Zambia. She was part of a four person team— one challenge—Zambia does not recognize women in Rotary. It took 36 hours of travel to get to Zambia; when they arrived Rotary was everywhere. Michelle said she was "way out of her comfort zone." Mud huts, no access to clean water; she was presented with a live Chicken, which she named Paul Harris. She toured a copper mine where the conditions were unbelievable. Michelle made great new friends from around the world and she was amazed at how much the locals accomplished with so little. She assembled wheel chairs, visited an orphanage, built parks and participated in the building of a water well. "Rotary ... it's all about the PEOPLE."
