DR. JOHN FANKHAUSER

John Fankhauser, MD, MHA, was the speaker at our meeting August 2, 2023. He is the CEO of Ventura County Medical Center and Santa Paula Hospital.

Dr. Fankhauser has been a family practice physician and lecturer most of his career. From 2013-2018 he worked for a faith based medical mission in Liberia, West Africa. He was accompanied by his wife and children. He joined a small hospital to teach midwives and obstetrics care. Medical staff consisted of six people from various countries.

Liberia in 1980 was one of the richest countries in Africa. When its 20-year civil war ended in 2000, it became one of the poorest. The average daily wage was \$3.00.

In March of 2014, a small child died of a mysterious illness in Guinea. They discovered that it was Ebola. The virus

began to spread in West Africa. Dr. Fankhauser and his partners started to prepare “just in case.” For three months, there were no cases. Then they were overwhelmed. Few patients survived for the first few weeks. Three doctors on the staff were on duty 24 hours a day. They converted the chapel at the hospital to a six-bed isolation unit.

A doctor and a nurse on the medical staff contracted Ebola and they decided to treat them with an experimental vaccine that worked well in primates. They were transported to Emory in Atlanta and are survivors.

Other hospitals in the area shut down due to illness and lack of staff. His hospital was able to stay open and treat patients. With donated seed monies, they created the Ebola Survivors Clinic for those who suffered from long term health issues and losing family members.

ELWA Hospital received great support from the local Rotary Club in Monrovia, Liberia, receiving a global grant to build oxygen plants for four hospitals. The hospital went from 50 beds to 114 beds and got a residency program started for an HIV Clinic.

Dr. Fankhauser is grateful to be part of VCMC. It is a facility with a great heart that seeks to serve all as everyone deserves good health care. He feels they are good stewards of taxpayers’ money.

Thanks to the Rotary walkers, 150 families are served each month at the Ronald McDonald Family Room.
