The District Governor

Our District Governor will visit this club on March 1st for his official visit. This Day the District Governor expects a report on the activities of the club and the functions of the committees.

It is hoped that each committee chairman will concentrate on his particular duties during the next two months so that a complete report can be made on the activities of the club.

This report should include all the activities of the past and the intended activities of the future, of course as pertaining to this present year.

On March 1st we also nominate officers for the coming year. That is six directors will be nominated out of which group three will be elected at the annual meeting on the first Wednesday in April.

Attendance

The attendance report just received from the District Governor shows us that Fillmore, Santa Paula, and Oxnard are in the first ten this time and here we find Ventura the last one of the second ten.

That is a condition that can be bettered and with the co-operation of each member it wouldn't take much to boost our attendance from 89.58% up into the 90's.

May we start off the new year with a better attendance record.

Board of Directors

The Board of Directors meeting usually held on the first Monday of the month will be postponed until January 9th and will be held as usual at the Hotel Ventura unless otherwise notified.
