How does a reverse raffle work?

- Each ticket holder’s ticket is entered into the large drawing (and displayed on large white boards)
- As each ticket is drawn, the individual who is listed on the ticket is eliminated from winning the grand prize.
- Drawings will continue until TWO tickets remain. The remaining players may opt to split the \$5,000 pot, if present, or continue for the final drawing for the sole winner. Basically, the last person standing is the overall winner (barring a split of the top prize). The ultimate winner need not be present to win.
- First ticket drawn will receive a \$100 check
- Smaller prizes will be awarded along the way from items donated/gathered by club members.
