## How does a reverse raffle work?

- Each ticket holder's ticket is entered into the Pot of Gold drawing (and displayed on large display boards).
- As each ticket is drawn, the individual who is listed on the ticket is eliminated from winning the grand prize.
- Drawings will continue until TWO tickets remain. The remaining players may opt to split the \$5,000 pot, if present, or continue for the final drawing for the sole winner. Basically, the last person standing is the overall grand prize winner (barring a split of the top prize). The grand prize winner does not need to be in attendance to win.
- First ticket drawn will receive \$100 (the luckiest loser). Midway loser will receive \$250.
- Smaller prizes will be awarded during the evening from items donated/gathered by club members. You must be in attendance to win these.
