Dear Rotary Club Leaders,

The Warm Hands, Warm Heads, Warm Hearts project was launched in 1993. Since then, Rotarians have distributed well over one half million hats and mittens to those in need from all walks of life. Distribution is generally through schools, churches, shelters and other organizations.

In addition to providing warmth, the project has facilitated excellent PR and recognition for the participating Rotary clubs. In 2023, Rotary clubs and other organizations will distribute nearly 15,000 hats and pairs of gloves to children and adults in their local communities.

As we continue this project, in its 31st year, we invite your club to participate. It's very easy ~ complete the commitment form below, and return it to the Rotary Club of Edina/Morningside with payment by September 15, 2023. The cost is \$18 per dozen (please order in quantities of 12 for each type of hat or pair of mittens). The items will then be available for pickup on October 21st by your group for distribution to the appropriate agency of your club's choice.

Pick up time is 1:00-3:00pm on Saturday, October 21st at Commercial Furniture Services, 4301 Highway 7, Suite 190, St. Louis Park, MN 55416. For more information contact Paul Nelson at (612) 363-6469 or [pnelson5220@gmail.com](mailto:pnelson5220@gmail.com).

**NOTE: This is a NEW location from past years – but just a few miles east. Located just behind Vision Bank is on the corner of Joppa & Hwy 7 (1/2 mile East of Hwy 100)**

On behalf of all the recipients who will delight in their new hats and gloves:

Dave,

Janet and I developed a survey based on one done in 2018 to determine the club's financial philosophy. I have attached a word document that shows the questions if you're curious. The intent of the survey is to ensure the foundations giving follows the desires of the club. If you could please make an announcement this will be coming out at tomorrow's meeting I will then distribute it later this week. We want to have the survey results back to discuss at the 10/18 club assembly.
