There was also a reminder about paying dues.

The net from the Brew Fest was about \$3,815!

**Program: 7/23/19 – Mark Penzien** gave the club an update on an international project for this year. The project involves 3D Printed prosthetic limbs for children. He showed a video on the topic. He also provided a handout on the project. It is a very cost effective solution. The cost is about \$1,000 per child. Mark asked if those present would like to have this as our 2019-2020 International Project and the club, with a show of hands said yes.
