

What is ClubRunner?

ClubRunner is a software platform designed for and used by Rotary clubs worldwide to improve communication among its members, their communities, and Rotary International.

What is it Used For?

- Storing member contact information
- Sending emails, texts, newsletters, bulletins, and other announcements
- Scheduling meetings, volunteer opportunities, events, and speakers
- Organizing club documentation
- Processing online donations and special event ticketing/sales
- Sharing photos and success stories among members and our community
- Connecting with our District and Rotary International
