From The Secretary's Corner-Did You Know?

That these are the **Headlines from the Year 2029 (continued)**: Last remaining Fundamentalist Muslim dies in the American Territory of the Middle East (formerly known as Iraq, Syria, Lebanon and Afghanistan). Iran still closed off; physicists estimate it will take at least 10 more years before radioactivity decreases to safe levels. Castro finally dies at age 112; Cuban cigars can now be imported legally, but President Chelsea Clinton has banned all smoking. George Z. Bush says he will run for President in 2036.

To be continued....

Program - Tonight's speaker was CE Superintendent of Schools, Alan Hawkins speaking about Native American history from past to present in Maine. As a boy, Alan spent many hours looking at burial and fire pits in eastern Maine, where he was able to find literally thousands of interesting artifacts such as arrowheads. Alan's interest in Native Americans was stimulated by the fact that his great-great grandmother was a Native American. Alan was able to show us many interesting pictures and slides, including his great grandmother who became a teacher in 1852. One of the more interesting things Alan showed us was a collection of baskets made by Sylvia Stanislaus, the wife of the tribal governor. She made her last basket in 1933 at the age of 101. Alan enjoys teaching students about history and how it connects us to our past and he urges all of us to take the time to discuss history with our younger generation. Thank you to Kathy Ray for such an interesting topic.
