Phil Dube - Army

Tom Meyers - Coast Guard

Tony Wagner - Navy

And any others who weren't at this week's meeting

Continued wishes for a speedy recovery to Edie Davidson and to Frank Butterworth (who hopes to be able to join us in a few weeks!)

Congratulations to our Paul Harris President! – Kathy epitomizes what Rotary is all about.

Her generous spirit and caring heart have touched many lives, not only through the many club projects she has been involved in but in also giving back to her community through her outreach work at her church. She has been an integral part of our Rotary family since her husband Peter was our Club President in 2005-06. Through the years her dedication to Rotary, to our Club and to her community has been an inspiration. And for that reason a generous club member honored her as a Paul Harris Fellow at this week's meeting – congratulations Kathy, and thank you for all that you do/have done for our club!

Soup Kitchen – Thank you to those who helped serve over 300 customers in the Soup Kitchen this week:

Paul Butler

Joe Conroy

Kathy Cotter

Rich Daniels

Bill Daviero

Ray Healey

David Lourie

Dick Yerxa

Bill York

Health Kids/Brighter Future – Our Foundation Dollars at Work – Our speaker this week was Lonnie Hackett, who was accompanied by Claudia Frost, last year's president of the Brunswick Rotary Club. If you were at the meeting you already know his story and if you couldn't be there, I have quoted below from the brochure about the program that the Brunswick club put together. The Brunswick club applied for and received a Global Grant from The Rotary Foundation for \$35,770 to conduct school-based health screenings and provide health education for teachers. Their club and other clubs as well as individuals have added to that amount. If anyone is interested, donations can be made to:

Brunswick Rotary Community Fund (with GG1422387 on memo line)
Rotary Club of Brunswick
PO Box 281
Brunswick, ME 04011

If you want to use your \$50 discretionary voucher for this, just let Nancy Irving know.

From the brochure:

While Lonnie Hackett was a student at Bowdoin College, he had an opportunity to travel to Zambia during summer break in 2011 to teach English and math. While there, he noticed an alarming gap in his students' knowledge of basic health care including common and preventable childhood diseases, sanitation, and HIV/AIDS education and prevention.

Lonnie traveled to rural Nepal in the summer of 2012 where he observed a school-based healthcare model that he believed could be modified to fit the vulnerable children in the N'Gombe district of Lusaka, where the poorest children, over 16,000 of them, live and attend school.

During his senior year as a biochemistry major, Lonnie garnered the knowledge of any global health expert who would listen to his goal of establishing a program to train teachers as health care providers within the 50 public schools that serve children who suffer from treatable diseases. He founded HK/BF with the help of his mentors.
