**Welcome Jacki!** – This week we welcomed Jacquelyn (Jacki) Farrell into the club. Jacki is a South Portland resident and works as a financial planner with Morgan Stanley. Jacki has 2 teenagers (19 & 16) + one almost-teenager (12); she would like them to be involved in Rotary activities also. Jacki is a graduate of USM and is very interested in giving back to the community (as are the rest of us in Rotary!). **WELCOME, JACKI!!**

**Congratulations, Students!** – Our club selects scholarship recipients, whose names are announced at ceremonies at South Portland High School and Cape Elizabeth High School just prior to their graduation. But at that ceremony all they actually receive is our congratulations! After successfully completing their first semester of college, our club sends each of them a check for \$1,000. Upon receiving word that all students had met our requirements, Mike Tranfaglia initiated sending checks to the following 2015 high school graduates:

- \* Paige Carter – UMaine Farmington (SPHS)
- \* James Falconer – Holy Cross (SPHS)
- \* Julia Ginder – MIT (CEHS)
- \* Madeline Martin – Goucher (SPHS)
- \* Samantha Munson – SMCC (CEHS)
- \* Sydney Onos – UMO (SPHS)
- \* Silas Zechman – Hobart (SPHS)
- \* Claire Zimmerman – Texas A&M (CEHS)

Silas was able to visit our club this week to convey his thanks, and we have received nice thank you notes from some of the other students as well.

**Privacy in the Digital Age - How we got here, where we are going, and future threats**, by John Doughty. Mr. Doughty asserts that privacy in the digital age is dead. Every day we are subjected to over 10 million cyber attacks on our government. Borders don't matter anymore as cyber attacks can come from anywhere. The situation is bad and getting worse. In the wake of 9/11 the NSA embarked on "The Program" which was designed to make sure that we were never again surprised by a terrorist attack. This also came with the surrendering of a lot of individual privacy which was exposed by Snowden. The age of Big Brother is now here. "Laws and ethics can't keep pace with technology." To protect yourself, change your passwords regularly, and closely monitor all your bank and credit card accounts
