# MERRY CHRISTMAS FROM THE RUSSELL FAMILY

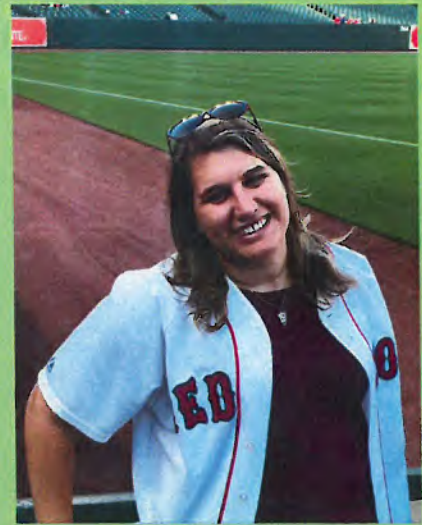

---

Over the past year, Annie finished up her junior year at Loyola University Maryland and is in the process of completing her senior year. She'll be graduating in May of 2018 with a degree in Accounting. She also saw her favorite band, All Time Low, play for the 9th time this past year, which was one of the highlights of her summer. Annie has also had the pleasure of seeing three Red Sox games this year, all with Tori. Even though the Sox didn't go far in the playoffs, we still have next year. While Annie isn't sure about what she wants to do after graduation yet, she knows that she'd like to move back to New England.

---

2017 was a year of adventures and transitions for Tori. In July, Tori moved to her new apartment in Fells Point, Baltimore. She also began her new job with the Baltimore City Health Department doing intake work and outreach for clients in the city. When Tori wasn't working, she was traveling with her boyfriend, Derek. This summer, the two of them visited all of the baseball stadiums on the East Coast and Mid-Atlantic region. Her favorite weekend hobbies include spending time with Annie, watching the Patriots with a group of "New England transplants" at a local sports bar in Baltimore, and thrift shopping!
