

LIFEFLIGHT OF MAINE

Rotary Club, South Portland & Cape Elizabeth

Our Mission

We believe that **everyone deserves access** to world-class, lifesaving medical care when they need it most.

Who We Are

We are an **independent nonprofit** with an essential public mission.

- Serving every hospital, community, logging road, and island in Maine.
- Transporting 3,000+ patient each year.
- One of the premier air medical programs in the nation.

What We Do

We move the front doors of the best medical centers in the world to the patient's side.

- Helicopters, Airplane, Ambulances
- Maine's most critically ill and injured patients
- ICU-level care
- Advanced fleet and specialized medical equipment
- Highly-skilled crew

The Healthcare System Around Us

Maine's healthcare and EMS systems are strained. Services disappear, units close, and access to care, especially for the most acutely ill and injured, is uneven at best across Maine.

Access to Critical Care

For the most critically ill and injured people, the advanced critical care they need to survive can be far away, almost too far, and that is unacceptable.

Our Vision for the Future

No one in Maine is too far from the care they need to survive.

LifeFlight will be there.

Built on Partnerships

It takes all of us coming together to make this work.

- Hospital Systems
- State of Maine
- Federal Government
- Local Communities
- Grateful patients
- Generous supporters

The LifeFlight Foundation

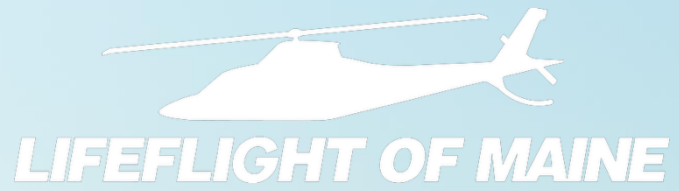

Your support makes our mission possible.

- A **fleet** that can reach patients as safely and quickly as possible.
- **Medical equipment** to deliver ICU-level care.
- Critical **aviation infrastructure** that enhances reliability.
- **Caring for the caregivers** — support for our crew to be at their best, so that our patients get the best.

YOU ARE HERE.

Thank you for your support!
