REVIEW

Ira Wilsker, a computer crime and cyber security expert, was our speaker last week. He is the Director of the Management Development program at Lamar Institute of Technology, where he has been a full time faculty member for 28 years. He also teaches computer security classes for the Texas Center for Homeland Security. And in his spare time, he is a police officer who has traveled extensively both in the US and overseas lecturing on computer security topics.

Ira stated that identity theft was the #1 felony reported by the Synovate Report prepared for the Federal Trade Commission. Per that report 4.6% of adult Americans in 2003 were victims of identity theft or 9.9 million people. Over \$47.6 billion in losses were attributed to identity theft in 2003. You can read more about this report and other useful information at: www.consumer.gov/idtheft.

The number one scam for obtaining personal information is called "phishing". This scam involves Internet fraudsters who send spam or pop-up messages to lure personal information (credit card numbers, bank account information, Social Security numbers, passwords or other sensitive information) from unsuspecting victims.

The FTC suggests these tips to help you avoid getting hooked by a phishing scam (Per FTC Consumer Alert, How Not to Get Hooked by a "Phishing" Scam):

- \$ If you get an email or pop-up message that asks for personal or financial information, do not reply.
- \$ Use anti-virus software and a software, and keep them up to date.
- \$ Don't email personal or financial information.
- \$ Review credit card and bank account statements as soon as you receive them.

The major source of identity theft is "spyware" per Ira. Ira graciously gave several websites by which you can download free software that will kill spy-

ware and pop-up ads. Some of the sites are:

- www.safer-networking.org (Spybot-Search and Destroy)
- www.javasoftusa.com (Ad-Ware SE)
- www.microsoft.com/security

He said that an excellent source of cyber security information is:

www.staysafeonline.info

Each year the National Cyber Security Alliance in collaboration with government and industry partners sponsors a National Cyber Security Awareness Month in October. Ira urged all of us to become involved with this project.

He answered a multitude of questions including that over 80% of wireless networks were unsecured. On that happy thought, we adjourned. Thank you, Ira, for a most informative and relevant program.

by another law partner, **John Quigley**. Phil was named as a Super Lawyer in 2004 by *Law and Politics* and *Texas Monthly*.

He also cited Phil's commitment to our community through his involvement with Camp Fire Girls, Fairway Houses, the St. Anthony Cathedral School Foundation, the Old Town Neighborhood Association, the Salvation Army and Anayat House. He currently serves as President of the United Way and is a member of the building committee and legal counsel for St. Stephens Episcopal Church where he and Georgia are members.

Phil and Georgia have two daughters, Caroline and Katy, two sons, Max and Clay, and two grandchildren, Emma and Ella.

Louis concluded his presentation with, "All who are acquainted with Phil know that he is friendly and kind and caring in every way. He responds loud and clear 'Yes' to the Rotary Four Way Test and is a vivid picture of the Rotary motto 'Service Above Self'."

Congratulations, Phil!

From the RI President

Dear Fellow Rotarians:

Rotary year 2005-06 is the beginning of our second century of leadership in service to others. Service organizations like Rotary International play a vital role in today's society and will play an even more important role in the future. Two words will be key words – cooperation and continuity.

Rotary has set a standard on how cooperation and continuity can work among society, the private sector, other foundations and service organizations through its PolioPlus programme "to interrupt the transmission of the wild polio virus." For more than 20 years, Rotary International has cooperated with the United Nations, through WHO and UNICEF in this programme and we are now looking forward to a giant success story.

Cooperation, however, does not have to be on a global basis, it must also be on the local level. Districts, or clubs, are likely to reach further in cooperation than each party could possibly do working individually. I ask the Rotarians of District 5910 to work cooperatively with one another and with other organizations in your communities.

All the fields in which Rotary is working are huge – health, hunger, literacy and water, just to mention a few. None of these issues can be solved over a short period of time. If that had been possible, the problems would already have been solved. This is why continuity at all levels is so important.

To work for a better world for all people is like putting together a giant puzzle. Every participant will have to help in placing the pieces. Through **Service Above Self**, Rotary International must work to make its pieces as large as possible, and in doing so we continue to show the world the great leadership of our organization.
