Jason Bagley — INTEL

Our program last week was headlined by Jason Bagley, responsible for Intel's regional public policy strategy for local, State and National issues. Jason was a Captain in the US Army and served 13 years. He is on various local boards. A University of Utah graduate, he shared an Intel update with us. Intel's vision is: "If it's smart and connected, it's best with Intel." Intel is evolving to a company that powers the data center and billions of small, connected devices. Intel has also established an "Artificial Intelligence" group to help grow and expand its business. Founded in 1968, Intel made its first microprocessor in 1971. Moore's Law provides that every two years, one can double a chip's capacity and usage enabling new devices with higher complexity and functionality while controlling power, cost and size.....and they are doing it. Only Intel and Samsung are fully integrated device manufacturers over architecture, process technology, product design, software, manufacturing and research.

Since 1996, Intel has invested more than \$20 billion in capital investment. Intel is the largest employer in Chandler and 7th largest in Arizona. They have 11,000 Arizona employees and a \$1.7 billion annual payroll. Intel is also a significant contributor to local education. They are the largest USA green power purchaser.

Over the next 3-4 years, Fab42 will be completed here in Chandler with \$7 billion invested, creating 3,000 new jobs. With that, they will be fabricating 7nm chips (now at 14 nm) and will be the world's most advanced semiconductor factory. (Note that 7 nm is about 1/10,000th the width of a human hair.)

HAPPY/SAD \$ AS REPORTED BY BILL MCCOACH!

Sgt.-at-Arms Dee Rasmussen was assisted in her duties by **DeeAnne Hawkins**. **Two Dees** on the loose! Spinning the wheel for her birthday was **Colette McNally** costing her \$5. **Fred DePrez** was pleased that the local high schools were doing well in the baseball tournaments and (surprisingly) also the AZ Diamondbacks. **Stu Frost** was happy that he and his wife were able to see the Diamondbacks win in extra innings on Sunday. **Chuck Deuth** and **John McKoy** both paid for not having their Club Badges! **Ed Anderson** perused our Facebook page and marveled at **Bill Giessing's** dark tan. He also commended **David Mork** for repairing our Rotary spinning

wheel. **Many Thanks!!! Ed** was also happy that his grandson was in a basketball tourney in Las Vegas and they were the victors! **Bill Schink** had unruly hair (what else is new? At least he has some.) **Bill Crump** was pleased that his wife's Michigan friend had children going to Yale Univ. **Tom Waldron** celebrated the repair of **Frank Wiley's** water heater. **Dwight Snyder** just contributed for being happy. **Bill Stanicek**, whose cell phone went off, said he received a call from a women's rights group and was attending a prayer service for the Chicago Cubs. (His fine should be bigger.) **Wayne Johnson** let us know that **Howard Rudge's** wife is going through some health issues, which we are concerned about. Keep them in your thoughts and prayers. **Don Prestin** contributed \$5, being happy that \$ came in from PayPal from our golf fundraiser. **Mark Grady** was happy for no apparent reason. And **Myron Harper** was very happy with **Dee**; and he got a hug from her. **Hal Wochholz** thanked all who have helped him over the years.
