Above, Martin Bellone speaks to Rotarians about homelessness in Palestine.

Long-time Rotarian and active member of the Palestine community William Windsor 'Duke' Waggoner passed away earlier this month. A memorial celebration of Duke's life was held at St. Philip's Episcopal Church in Palestine on August 20. Let's continue to remember his family in prayer as they mourn his passing.

Humans as a whole need to know things about one another... Things that are sad and things that are happy. A recent death in the community made many aware that we would like to know our fellow rotarians better. Things like when children are born, grandchildren are born, kids graduate, get married, GET A JOB!!, when a Rotarian or a Rotarian spouse gets a promotion, gets a new job, is recognized by their professional association, etc – all the things that normally happen to people. We can be a closer, more cohesive unit, if we know each other on a more personal level. These are things that could be shared through Roto-Views if known in advance. Let's get our "news" to Jake so that it can be shared weekly in our Roto-View. Email such events to [jmienk@palestineherald.com](mailto:jmienk@palestineherald.com) for placement.

## Rotary recommits to ending polio in Nigeria

The World Health Organization has confirmed two cases of wild poliovirus type 1 (WPV1) in Nigeria, the first cases in the country since July 2014. After passing a year without a case of the wild poliovirus, Nigeria was removed from the list of polio-endemic countries in September 2015. These cases – from two local government areas of Borno state – occurred in July 2016.

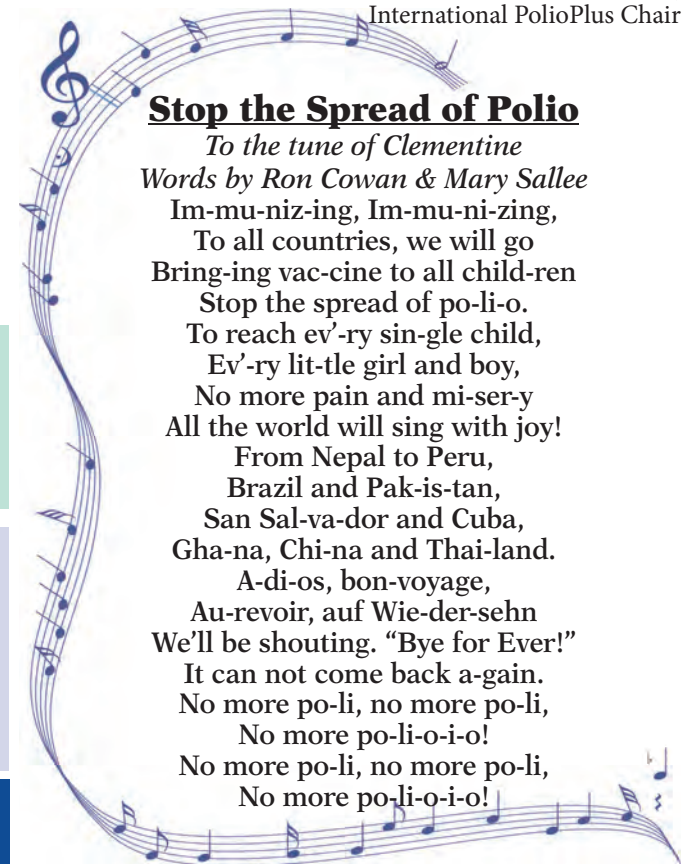

The Government of Nigeria – in partnership with the Global Polio Eradication Initiative – will take immediate steps to respond quickly to the outbreak to prevent further spread of the disease. This response will include emergency vaccination campaigns to boost immunity in impacted and at-risk areas, and reinforced surveillance activities to ensure we detect all strains of polio. Because polio knows no borders, steps will also be taken to protect surrounding countries, to ensure all children are vaccinated and to reduce the risk of the spread of the disease.

This news is disappointing for all Rotary members - and particularly those in Nigeria - who worked so hard to help the country stop polio. However, Rotary remains steadfast and fully committed to fighting polio anywhere children remain at risk, including Nigeria and Africa.

Rotary members remain resilient in the face of challenges. Today, we roll up our sleeves and redouble our effort to rid the world of this devastating disease. Rotary members in Nigeria are already hard at work to support the outbreak response, and our network will also be tapped to quickly protect children in surrounding countries.

The World Health Organization is confident Nigeria can end polio. The program has overcome outbreaks before, and we have the tools to do so again in Nigeria. Rotary will not stop its efforts to ensure that every child is born into a polio-free world where they are safe from this paralyzing disease.

Michael K. McGovern,  
International PolioPlus Chair
