Holzbog comes to ScionHealth from North Alabama Shoals Hospital, where he held the position of Chief Operating Officer. In that role, Holzbog led his hospital's significant success in challenges faced by most community hospitals – patient volumes, service line growth, recruiting providers, and building physician relationships. The Market CEO position marks a bit of a homecoming for Holzbog, who earned his Bachelor of Science in Biology at Texas A&M University - Commerce and spent the first 24 years of his career leading a medical and legal billing company in Denison, Texas. He transitioned into hospital management in 2013 and has led physician operations in facilities from Oklahoma to Tennessee, including a two-year tenure at a sister ScionHealth hospital, Southwestern Medical Center in Lawton, Oklahoma. Holzbog attained a Master of Business Administration - Healthcare Management from Western Governors University. He and his wife Charla have four children and seven grandchildren.

Rotary Timeline

- 1905** **Rotary Begins**
Attorney Paul P. Harris convenes the first Rotary meeting on 23 February in Chicago, Illinois, USA. Harris envisions a professional club that brings together local men from a variety of vocations.
- 1907** **Early Service Project**
The Rotary Club of Chicago meets with civic organizations to discuss the need for comfort stations (public toilets) to improve sanitation in the city.
- 1908** **Rotary's Second City**
San Francisco, California, USA, becomes the second city to have a Rotary club in November.
- 1910** **Clubs Form an Association**
Members representing 16 Rotary clubs gather at the first Rotary Convention, in Chicago in 1910. They create the National Association of Rotary Clubs of America, adopt a constitution and bylaws for the organization, and elect a board of directors. As members of the association, Rotary clubs remain autonomous but share core values.

Basic education and literacy is one of The Rotary Foundation's six areas of focus. We know that basic education and literacy are essential for reducing poverty, improving health, encouraging community and economic development, and promoting peace.

- If all women completed primary education, there would be 66% fewer maternal deaths.
- A child born to a mother who can read is 50% more likely to survive past the age of five.
- If all students in low-income countries left school with basic reading skills, 171 million people could be lifted out of poverty, which would be equivalent to a 12% cut in world poverty.

The world is making good progress in this area. According to a 2014 United Nations Millennium Development Goals progress report, literacy rates among adults and youths are on the rise and the gender gap in literacy is narrowing. But pressing global needs remain:

- 58 million children worldwide are out of school.
- Even after four years of primary schooling, as many as 250 million children cannot read and write.
- 781 million adults are illiterate.

Rotary supports activities and training to improve education for all children and literacy for children and adults.

Consider these facts....
