The Meeting: June 29, 2011

by Perkins, Rual

President Brad Wilkerson opened the meeting, probably for the last time as his term as President ends today. Roger Patel led in the pledge to our flag and Earl Medlin lead the invocation. Rual Perkins had a joke and Brad Wilkerson got his ticket drawn, but drew the 8 of Hearts. The pot was left at over \$800.

Brad reviewed the past year of his administration which was a successful one. Linda Porter-Bradford will be working to organize a Rotaract team at the High School, which was a long sought accomplishment. The financial report was given by Treasurer, Dan Steele. Nearly all of our budgeted items came in at or under projected amounts and the club is in very good standing with a balanced budget and current assets at \$33K and liabilities of only \$8.3K which includes \$8K for Scholarships Payable. He announced that the next Board Meeting would be July 11 due to the 4th being a holiday. Our officers for the upcoming year are: President, Harris Brooks, President Elect, Keri Dobbs, Secretary, Roger Eades, Treasurer, Lauren Mitchell.

Incoming President Harris Brooks presents the gavel to Outgoing President Brad Wilkerson for a job well done.

The Meeting, July 6, 2011

by Perkins, Rual

Newly inaugurated President Harris Brooks took the podium today. He had Mary Braddock lead in the pledge to our flag and Leon Cowan to lead the invocation. Rual Perkins had a joke for us and Diane Brown took home \$22 in the ticket draw. She pulled the 8 of Clubs leaving a pot of \$799.

With proper fanfare, Dan Steele introduced our new club officers for the year 2011-12. A fundraiser of a raffle for a shotgun was started to end with a drawing on August 31, just in time for hunting season. Each member is responsible for buying or selling at least four, \$50 tickets.

There were no visitors other than our speakers who were introduced by program chair, Scott Elder. They were from Electro-Medical

Blake Lawhon. The company was founded in 1982 and has been in Mineral Wells since the mid 1990's. Their primary product is the Alpha-Stim, a low voltage devise for the treatment of pain, insomnia, anxiety and depression. "Your body is made up of over 75 trillion cells. Each cell has electrical properties, much like that of a battery. Alpha-Stim generates a unique, proprietary electrical waveform using a 9 volt battery -- that allows your body's cells to operate naturally and bring you relief. Relief that lasts well after the treatment and over time, requires less frequent use. It is non-invasive and non-addictive and has been extensively tested and found effective."
