**To Move
or
Not to Move**

What We Know...

On average, people over the age of 65 have 2 or more chronic illnesses.

**Diabetes
High Blood Pressure
High Cholesterol
Arthritis
Heart Disease
Kidney Disease
Pulmonary Disease
Dementia**

What We Know...

The higher the skilled level of care a person needs, the more vulnerable they are to viruses/infections.

Skilled Care

Independent Living

Assisted Living

Memory Care

Skilled Nursing Facility

Little/No Care

Highest Level of Care

Skilled Care

A large portion of Covid-19 cases/deaths are in nursing homes and attribute to about ½ of the deaths in AZ.

If the Risk is High, Why Move?

Safety

Falls, nutrition, memory loss, socialization.*

Care

Lack of people to care for you.

Cost

Home care = \$25/hour

Skilled care = \$1,600 to \$5,000+/mo.

What is Being Done to Protect Residents?

Following State & CDC Guidelines

- * 14-day quarantine in apartment**
- * Temperature checks for employees**
- * Testing residents for Covid-19**
- * Only allowing essential workers into the building**

What is Being Done to Protect Residents?

- * No admittance to memory care (select places)**
- * Strict cleaning & sterilization protocols**
- * Plenty of PPE for residents and employees**
- * Dedicated medical equipment**
- * Hallway activities/meals in room**
- * Virtual tours**

The Future

Communities are working on re-opening plans now

Visitations will resume during Phase 3

Move-ins are beginning to open up.
