Following in my grandfather's and father's footsteps, I joined the Bristol Rotary Club. I have been with the Bristol Rotary Club since I was eighteen years old. This year marks my six years with the club. Since my junior year of high school, I maintained a busy schedule between classes, cheerleading, volunteer cheer coach, and work. The madness did not stop there. Through college, I juggled more classes, commuting, Rotary, office management, and relationships. I can provide ways to balance academics, family, and personal life.

My field of study matches my personality, Hospitality and Tourism. I got into this field because of Rotary. The opportunity to join Rotary came knocking on my office door in 2014. Being of the younger generation, I brought the tech world to the Bristol Rotary Club. It started with the District 7890's 2015-2016 Installation Dinner. From there, I was the registration chair for the District 7890's Weekend Conference. The opportunities to do more kept coming. I am on the President's Board, the Scholarship Board, and the grant chairperson, to name a few. On top of managing our Instagram and the website before your eyes. The events Rotary puts on are all for a good cause, and I wanted to be apart of that.

I have been in the food and beverage field since November 2018. Connecticut Wedding Group is where I got my start as a wedding server. The next year September 9, 2019, Chippanee Country Club hired me as a Banquet Server. February 2020, I got a promotion to Banquet Lead. Exactly, a year later after, they gave me another promotion to Banquet Captain. Now, I manage the banquet team, hire new team members, and attend more meetings.

In my efforts to achieve my current goals, I am reading "Wuthering Heights," exercising six out of seven days, and the quarantine has forced my hand to cook more meals.

My top three future plans become the President of the Bristol Rotary Club, execute my dream job as an event planner in Boston, MA, and see the Northern Lights.

## **Update 2021**

I did finish “Wuthering Heights.” As for exercising, I mostly walk around work. When it gets warmer outside, I will exercise more. My dog Romeo loves to go for walks with me. Until it warms up, I will stay cozy in the blankets snuggled up to my man and my dog. As for cooking, I limit how often I go out to eat and try to cook more at home. There needs to be a balance between cooking at home and supporting the local businesses. My go-to spots are the Bell City Dinner, Bolos, Marilyn’s Pub and Restaurant, and Parkside Café.

I am next in line to be Club President. On July 1st, I will make history. I will be the Bristol Rotary Club's youngest club president at twenty-four years old. Also, I will be the first third-generation Rotarian as president. There has been a shift in my career path. My current plan is to learn everything I can as a Banquet Captain at Chippanee Country Club. I am fortunate where I can learn restaurant skills at Chippanee Country Club. I still plan to see the Northern Lights at some point and travel to Peru.
