I have been a Rotary club member in both Guatemala and Bristol for approximately 3 years.

I look forward to providing insight and feedback to students interested in all matters of educational and higher education, as well as, leadership development, systems thinking and logistics.

I have a diverse career background which I would be pleased to share with you and in support of your career, academic interests, and unanswered questions.

My favorite movies are "Dances with Wolves" and "Remember the Titans." My favorite author is Peter Senge and I am currently reading "Born to Run" by Bruce Springsteen.

My passions are languages, cultures, and motorcycling.

Currently, I continue to travel the world to assist international schools in both their design-structure and strategy to deliver world-class education to their learning communities.

I look forward to serving you.
