Richard is retired. He splits his time as a volunteer between RCPC, Highland Park Methodist and several nonprofit boards. He was formerly an attorney, later a retirement community administrator, and finally a church program director. His wife Debbie just retired from public accounting. His son Garrett is an attorney and his daughter Lillie is headed for college at the University of Denver.

He earned a BBA and a JD from SMU (so long ago he's now a "Golden Mustang"). Later he received an MS from North Texas University.

He was RCPC President in the 2019-2020 Rotary year. The end of his year was during COVID, but he found a way for RCPC to continue to meet every wee, and presided at meetings from Mark Neace's studion. He is a Paul Harris Fellow and a Frank Monroe Fellow.

Dallas

With a 2020 census population of 1,304,379, Dallas is the ninth most populous city in the U.S. and the third largest in Texas after Houston and San Antonio. Located in North Texas, the city of Dallas is the main core of the largest metro-politan area in the southern United States.

Dominant sectors of its diverse economy include defense, financial services, information technology, telecommunications, and transportation. Eleven Fortune

500 Companies are located within the Dallas city limits.

Dallas developed as a strong industrial and financial center and a major inland port, due to the convergence of major railroad lines, interstate highways and the construction of Dallas/Fort Worth International Airport, one of the largest and busiest airports in the world.

The population of Dallas was found tp be the fifth most diverse city in the United States in 2018

RCPCIN ACTION

MORE Awards!

Wilbur C. Hawkins
Spirit of
Rotary
Award

**Joi
Gold**

Joi is traveling for work and sent a video thanking the club for the award.

buy your lottery ticket!
\$! per ticket or 7 tickets
for \$5, or 30 tickets for
\$20

Be a vibrant and Visionary Model of Service Above and Beyond Self

LAST WEEK

Presiding: **Jeff McNaughton**
Invocation/Pledge: **Cleve Clinton**
Photographer: **Ley Waggoner**
Chair of the Day: **Jeff Brady**
Speaker: **Tom Luce**
Program: **Bio Labs**

President **Jeff McNaughton** called the meeting to order. PP **Cleve Clinton** gave the invocation and then led the Pledge of Allegiance and the *Star Spangled Banner*. President **Jeff** introduced our visitors and guests, including visiting Rotarians from India. He then called for "happy bucks."

Patsy Watson introduced our Marketplace Advertiser of the Week, Mark Neace and Sync-Lab Media. Sgt-at-Arms **Kathy Wall** asked all of the members with August birthdays to stand and reminded them to donate to the RCPC Foundation.

PP **Fred Brown** explained the Wilbur Hawkins Spirit of Rotary Award and then introduced the recipient, Joi Gold, who had sent a video thanking the club. She has joined a new medical technology consulting company which will require her to travel. She will no longer to be able to be a member of our club.

Alice Freidline made a special recognition, honoring Cora for whom she wrote a grant while they lived in Midland so that Cora could attend the London School of Economics. They have kept in touch. Now she is in her second year at UT Law School. **Alice** explained the significance of Paul Harris and the Paul Harris Fellow. She said that she wanted to encourage Cora to be in Rotary wherever she landed after she completed law school.

Parthivi Patel gave her new member speech. She began by saying that she was from Mumbai, India. Both of her parents are Rotarians and both are past presidents. She came to Dallas to pursue a degree in electrical engineering at SMU. She started working for a start-up, but is currently working for Samsung as a radio frequency engineer. She is also pursuing her MBA. She first joined RCPC in 2017; her main reason for joining is peace. She had to drop out when she was looking for a job. She has decided to rejoin. She thanked all of the members who have helped her.

Jeff Brady introduced our speaker today, Tom Luce who spoke on "Bio Labs." He began by saying that Bio Life Science Companies have been in Dallas for twenty years. One of his reasons he is supporting the life sciences. He believes that it will continue to diversify the economy, bolster the workforce and create life-saving treatments. North Texas has the potential to become the next life sciences center. North Texas has had greater economic growth than much of the rest of the country. There is a lot of funding in the area. It is the top area for job creation in the country. There is a high concentration of tech jobs. There are six major not-for-profit health systems in the area and two major for profit companies, including two public health systems and one veterans health system. There are seven national healthcare corporations and 104 life science startups. Texas is attracting capital from out of state. In the last five years the growth of the bio-tech industry in North Texas is two and a half times that of the rest of the country. Our strength is in research. Sixty-seven percent of the regions total R&D spending is dedicated to the life sciences. UT-Southwestern currently is the number one source of high quality medical research. Pegasus Park is located near UT-Southwestern. It will create in one space all of the partners needed to grow the entire sector, including startups, incubators, venture firms, and lab space. The complex is dedicated for innovative companies to grow.

Please remember ...

David Goodson whose wife passed away on July 20. Her memorial service was on August 1. Please keep Dave and this family in your prayers.

Doug Means's wife has fallen and broken her shoulder.

Please let us know your joys and concerns.

quency engineer. She is also pursuing her MBA. She first joined RCPC in 2017; her main reason for joining is peace. She had to drop out when she was looking for a job. She has decided to rejoin. She thanked all of the members who have helped her.

THOUGHTS ON . . .

Democracy

It has been said that democracy is the worst form of government except all the others that have been tried. ~ Sir Winston Churchill

In democracy it's your vote that counts; In feudalism it's your count that vote ~ Mogens Jallberg

Democracy is the recurrent suspicion that more than half of the people are right more than half the time ~ E. B. White

Democracy is a process by which the people are free to choose the man who will get the blame.

~ Laurence J. Peter

In a democracy dissent is an act of faith. Like medicine, the test of its value is not in its taste, but in its effects. ~ J. William Fulbright

If liberty and equality, as is thought by some are chiefly to be found in democracy, they will be best attained when all persons alike share in the government to the utmost.

~ Aristotle

The love of democracy is that of equality. ~ Charles de Montesquieu

FAMILY OF ROTARY

Article thanking RCPC in the "Paper for Water July Newsletter"

The article reads:
"Thank you Rotary Club Park Cities for inviting Katherine to share the Paper for Water story and mission with your members. A special thanks to the current club president, Jeff McNaughton, who is a long time friend and supporter of Paper for Water."

HE WHO LAUGHS, LASTS

More Life Reflections By George Carlin

Ever notice that anyone going slower than you is an idiot, but anyone going faster than you is a maniac?

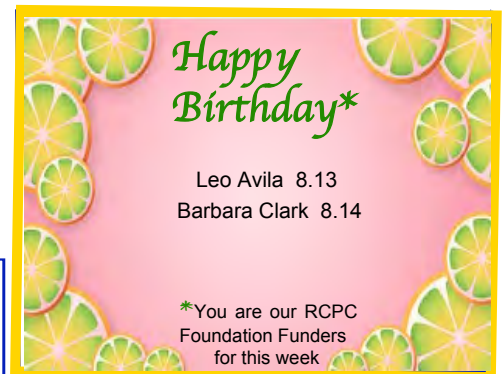

I have six locks on my door, all in a row. When I go out, I lock every other one. I figure no matter how long somebody stands there picking the locks, they are always locking three of them

Creating positive change: Rotary's Empowering Girls initiative

What does it mean to be empowered? For girls throughout the world empowerment is the ability to make choices and create positive change in their own lives, as well as in their families and communities.

Empowered girls become empowered women. Reaching out to the girls of our world is the heart and purpose of Rotary's Empowering Girls Initiative. Now in its second year, RI's Empowering Girls Initiative has launched thousands of projects and activities - *Excerpted from Rotary Voices, July 22, 2022*
