all the coverage by *Park Cities People* and **Tania Boughton** for helping gain additional donations. He then turned the program over to **Cub Amos**.

Before introducing our speaker, **Cub** recognized Bill Schooling who was visiting today; he is responsible for bringing the Sea Cadets to carry the flags in the Parade every year. **Cub** then introduced our speaker today, Captain **Marc Liebman**, USN (Ret.) who spoke on "North Korea: The Threat, The Truth and out Options." He started by recognizing all the veterans in the audience and welcoming them home, because Vietnam vets were not treated very well. He said that North Korea is a terrible place to live; it is the most repressed economy in the world. North Korea has four major exports, iron ore, small arms to Russia and China, counterfeit medicines sold to the third world, and illegal drugs as well as nuclear technology. The war between North Korea and South Korea has never officially ended. Kim Jung Un is far from being crazy; he is more like a spoiled brat. He throws temper tantrums to get attention. When he talks he talks to five audiences. To some it is "I am strong; don't mess with me;" but to China it is "I am strong; I can make trouble for you." The key is self-preservation. U.S. presidents usually respond by giving him money, but the agreements are never kept. However, President Trump has reacted differently; he has made it China's problem. China's economy is delicate and they need exports, so by using tariffs and threatening to size assets, China has become more cooperative. President Trump is very firm and demands transparency.

## THOUGHTS ON ... FAMILY OF ROTARY

### Fuel

Is fuel efficiency really what we need most desperately? I say that what we really need is a car that can be shot when it breaks down.

~ **Russell Baker**

Dreams, goals, ambitions - these are the stuff man uses for fuel.

~ **L. Ron Hubbard**

Here's what I think the truth is: We are all addicts of fossil fuels in a state of denial, about to face cold turkey.

~ **Kurt Vonnegut**

What a country calls its vital economic interests are not the things which enable its citizens to live, but the things which enable it to make war. Petrol is much more likely than wheat to be a cause of international conflict.

~ **Simone Weil**

Oil prices have fallen lately. We include this news for the benefit of gas stations, which otherwise wouldn't learn of it for six months.

~ **Bill Tammeus**

### Thank You from the VA
