Events Today Include 3-H Talk

The Health, Hunger and Humanity grants program (3-H) was established by Rotary International Board in 1977-78. The purpose is to improve health, alleviate hunger, and enhance human and social development to enhance international peace, goodwill and understanding. The grants are awarded to fund major projects which are too large for individual club or district resources and are typically in the range of \$100,000 to \$500,000. A minimum of 10%, but not more than \$25,000 must be contributed by co-sponsoring clubs or districts.

And... Phil being sung to, another marble pulled, members reporting on where they made up meetings and maybe a report from Eve and Del. A wonderful visit to the steam line and...

July 2nd Summer Summary

The new team has started just like New Years!! What a party. Saturday's party must have been wild, missing were several, including one Art. Dan Lambert led the Pledge and Ralph made us think of good thoughts and to be thankful for the good health we all share.

Steve Amend directed all of us to another new room. Funny how some members react to be told where to go. Maybe next week, we'll be in another new room. They were doing some kind of testing in ours.

Russ took almost total control of the meeting. Several members who had a position before tried to unseat Russ. But like a true fisherman, he kept going for the big one — Rotary goals.

Next week a talk on 3-H — hope someone gives me info.

Next came the ceremony missed from Saturday when Russ left his pin on his other toga. Shauna has that special

Rusty's Ramblings

July 1st is the beginning of a new Rotary year. Although I knew it would come, part of me says "Is it really time?" As part of the preparation for "my year", I attended P.E.T.S. (President-Elect-Training-Seminar) a four day intensive program of workshops and motivational speakers for all of the soon-to-be presidents from Northern California, Nevada and Hawaii. I was astounded by the volume of material and impressed by the quality of the information, speakers and overall excellence of the logistics of the meetings.

But on reflection what is truly remarkable is that the entire P.E.T.S. conference was organized by and delivered by very capable professional and business leaders who found time in their busy schedules to give of their time and energy to this endeavor. But that is what Rotary is — people like you and me who give of their talents and time to make a difference in our communities and worldwide.

I am honored and pleased to serve as your president for the 1998-99 Rotary year, a job I embark on with great enthusiasm and a small bit of trepidation. President Art has set a high standard which I view as a challenge that will enable us to continue to grow as a club. So, when you get a call from a club member asking you to serve on a committee or lend your supporting hands and ideas, take a minute to reflect on what it is that we as Sunrise Rotarians have contributed and more importantly, what we still have to do and then remember why it was that you became a Rotarian.

Foundation Notes

The club ended the year with a record contribution to the Rotary Foundation in excess of \$11,000. Ken Coker presented twin Paul Harris Fellowship to the Lufkin twins. The boys each received their Paul Harris pins and each also won \$10.00 from our club raffle. — *Thank you, Ken.*

Pay Yours Today!**

Evening Social

Nancy is looking for four homes to have *Fireside Get-Togethers* — great time for social. Offer her your home for the night — it's rewarding

The King's Palate is Dead!

President Art was debunked Friday night at the Fountain Grove Country Club. King Arthur and Queen Irene arrived to walk the red carpet to seat King Arthur on his royal throne — complete with flushing toilet sounds.

Dinner was excellent. The entertainment was eclectic and hectic (but no one should quit their day-time job). The event was well attended including Queen Irene's parents, Mr. and Mrs. Quezada. Rumor has it that the court jester (a.k.a. Gary Bayless) is such a frustrated actor that he was stealing everyone's lines.

July 2nd Summer Summary Con't. from page 1

smile — humor her till next year. Also she'll need support.

Jerry, doing his first official duty stepped up to pull \$10 from forgetful Russ.

Now Russ in a real good mood for Keith's birthday and if you missed Thursday, Boy! Birthdays going to be different — not telling what — go to next meeting and find out. Anyway, Keith washed his dog for the Big Day on the 4th.

Now if you go all the way to Maui like Steve Amend and have a wonderful tan the fine was only \$3. But, be very careful — a new car VW, yellow bug for the Tux Tuxhorn, hit \$40. Then Dale gave a high \$5 for a young girl graduating from college.

Jim McCracken stood up and said a couple of words and asked for help on setting up an Interact Club at S.R.J.C. Plus his phone changed to 528-9459.

Because he has a new office which is very close to the present President and paid a \$10 for moving so close.

Everyone knows you can trust Nancy. Ask her who's ticket she pulled first — white marble, then Mike Kelly got the EZY \$10.

Out of what all was said, the most important was to "strap on tools and do something for someone who can't do it themselves". Rotary International will match funds that we raise for world causes. But the most effort should be on helping others.

Several jobs are lined up for this year so all of us can lend a hand. Work parties under John Watson will paint, fence, roof and repair our community.

Upcoming for next year a replacement for fall Raffle, more as it comes.

If visiting another town and want a Rotary meeting,

email to www.Rotary.org. and you'll be given date, time, and location.

The "C" word was used by Russ and little else will be said because I refuse to use this Bulletin as a black mail device — guess who's BDay is next meeting?

Please come to the next meeting, as our year goal is 84.6% and if you don't come, we can't reach it.

We also need 5 homes July 31 to Aug. 16 for students from Japan for the SRKSEP. Call Bob Scott to get details and an opportunity of a lifetime.

Now if you don't do anything this year and travel the middle of the road, Russ said "There is nothing but yellow stripes and dead armadillos in the middle of the road".

The worst itches are always where you do not want to be seen scratching.

Cassandra Van Buren to speak on New Technology High School

The New Technology High School, a public high school in Napa, was started with a \$50,000 donation from the Napa Rotary Club. It embraces technology as a means of learning and uses unconventional teaching methods. Students are encouraged to work in groups without a lot of structure. There is at least one computer for every student. Cassandra is an instructor at the school

!! IMPORTANT NOTICE !!

TUESDAY
 July 14 • 7:00 am
 Board Meeting
 at Equus Restaurant

Well this meeting started about the same, either Sylvia or Merle were late but Jerry paid the \$5, thank goodness, for name badges.

Warren Smith introduced our new member, Gary Holtz. Now this guy won't bug anyone — a southern accent and a willingness to help people. Do step up and say "Hi" to our new member. Scott Holder and Phil Sitzman share — same birthday — and Russ said he wouldn't sing.

Shauna's moving to a new job, Controller at KFTY. Still will not see here face, she controls behind the scenes. Warren said she has been a controller for years. She was so happy, she put \$100.00 on son's Paul Harris. Good luck at your new job next month.

Jerry Johnson also has a new job in Windsor at North Coast Bank. They make loans and Jerry will put in a good word for you.

Jim McCracken said a couple of words, had tickets to Crusher game picked up by Gary Bayless, who when he saw parking was included, paid \$20 to the club. Gary was a little slow on offering a high \$5 about going to 14,000 feet to see fireworks on Pikes Peak. I guess he did some German car company a favor by driving one of their old cars to the top. Anyway, it cost more than the five.

About cars, Sylvia Higgins just had to replace her American car with a German car. The accounting didn't add up — she's got a wonderful

RUSTY'S RAMBLINGS

Last week's program on the 3-H project was an outstanding example of the spirit of Rotary and what it means to be a Rotarian. One person who has an idea or discovers a human condition that they identify with can make a lasting difference. If they decide to take action. Many of the accomplishments of the Santa Rosa Sunrise Rotary Club have begun as one person's idea which evolved into a club project.

- The Santa Rosa Kagoshima Student Exchange Program (SRKSEP).
- Recycling eyeglasses and fitting them to vision impaired third world citizens.
- Providing supplies to a rural school in the Southern Chilean frontier.
- Sending medical supplies and equipment to Croatia.
- Funding a deep water well in Haiti.

Each of these programs began as one person's vision and came to fruition as a result of the power of our collective efforts as a group. Not only can we leverage our ideas and hours of labor, we can take advantage of the Rotary Foundation to turn one dollar into three or four dollars through the matching grants program.

I encourage each of us to continue to voice our ideas and visions so that we as a club can share in the efforts required to make your vision a reality.

Continued from page 1

Mercedes and only a \$10 fine. Sounds like a good deal.

Carl was back from his travels. Saw the Cubs lose, drank local whiskey - some kind of Kentucky stuff. He toured the Harley Davidson factory looking for a new bike - wonder what that fine would be? In total, five states were visited and a nice tan developed. Isn't it nice to get back home? And thanks for the \$19.

Randy paid \$20 — something about a new licence — no not his birthday, but so he can drive in France. Now does that mean a trip, wine tasting, good food, good food and big bills; another fine?

Mike Panas you were missed. Hope you made up some place.

Dr. Davis had a wonderful time with his wife in Italy — lots of pictures of Florence and Tuscany and **Russ** pointed out "should of hit the big attraction David", program of three months ago. **Russ** will be in the office in a couple of weeks to see the photos — Yeah! Right! — they both smiled and **Steve** paid \$20.

Everyone wants to know about the drawing. Well, **Dan Lambert** had his daughter, **Andrea**, at the head

!DUES ARE DUE!

Pay Yours Today!

SPEAKER, DENNIS KALSON

Today's Speaker . . . DENNIS KALSON really showed how far we've progressed in one hundred years and how far some of the world is behind. The Health, Hunger and Humanity Grants Program (3-H) was established in 1977-78 by Rotary, but accepts money from Kiwanis and other organizations to do all the good work. The South American country where Dennis worked was Ecuador, where clean drinking water and waste water were the same. A saying of "Let's share the secret" that is world-known hasn't been implemented in a lot of countries and that is clean water is needed for good health. When a life expectancy of 46-47 years is normal and a life of cholera, typhoid, diarrhea and other illnesses kills off the young because of bad water, something must be done.

The organization 3-H teaches the people why you need clean water and that it prevents disease. By taking a couple of smart people in each village and creating a basic public health service and a committee to adjust and correct the service, a grass roots effort really helps people. This is especially true where a governments' down-effort spends the money and helps the people very little.

The grass roots effort lead by Dennis, went door-to-door and Rotary Room-to-Rotary Room, teaching people about clean water. The illness rate dropped from 58 per 1000 people to 10 in just one year. The treatment of 1000 cholera cases a day dropped to 16 which gave the government incentive to give more of the health service money for prevention. Even the establishment of out houses, in the eyes of the government, was not important. But 3-H showed villages how to chlorinate water, use well water, out houses, garbage dumps and even recycle items. A card of recycled paper with flowers pasted on was given to President **Russ** and is an example of how even in a poor country, recycling can be done profitably.

Now what is truly remarkable is our funds and efforts to help a third world country can come home. There is a dump on the Klamath River in Humboldt County — Yeah! Right here! This dump is being cleaned up by the same techniques learned in South American countries.

table. She pulled **Russ's** ticket that **Russ** had given her. Then she pulled a white marble to a couple of rounds of "aaaaaahs". Odds are getting better, 1 in 23. Join in the fun, you get three tickets when you buy breakfast — for those who haven't been in for a while. If you don't get to pull a marble you get an EZY \$10 like I did. Not a bad birthday.

Con't. on page 3

MYSTERY ROTARIAN

Our Mystery Rotarian grew up the son of a restaurateur,
 Very young he learned to appreciate hard work simple and pure.
 In California he did grow up, specifically in Riverside.
 In school, to learning mostly about sports, himself he applied.

He played pitcher and catcher on the Riverside Polly H.S. Team.
 As a pitcher he learned to make the ball curve, drop and or sink.
 He was a better catcher, but as a pitcher he didn't stick.

One day he threw the ball so hard no one could touch it.
 To his surprise the batter hit a fly far into the clear blue sky.
 When asked how far it went, he only said, "I don't know." with a sign.
 His teammates had never seen a ball travel so far unless it was in a car. They pooled
 their monies and bought our MR a trophy, for the longest ball,
 The guy they sent to get the ball is still looking for where it may fall.

He went on to college and studied accounting at Chico State.

After a while and a lot of work he did graduate.

While in college he and a partner got a business start.

He did the bookwork and in the physical work he took no part.

When he finished school he sold out and went to Europe,
 To round out his education, and see what kind of trouble he could stirrup.
 He came to Santa Rosa to work as an accountant for Pisenti & Brinker.
 He worked hard, until he learned that as an accountant he would be a stinker.

He had an opportunity to consult for a local company,
 Where he made a good living making the books appear straight,
 When I asked if they balanced he said, "Yes" but he did hesitate.

He's a grandfather now and he must project a good image,
 So his grand children will carry on the family lineage,
 For fun he likes almost any activity one can outdoors do.
 Golf., Racquetball, Fishing, Hunting, and skiing on snow to.
 I've heard something about wild parties in LA
 But, not having all the details there I won't go, not today.

Rack your brain, think hard and think brave,
 Can you name this person at our next meeting?
 If not, don't even think you might save,
 Take your wallet out, it's going to take a beating.

One of our employees is doing her final for school. Her topic is the famous artist "Georgia O'Keeffe". She said when she entered the name on the home page of AltaVista, 4063 sites came up. The best site on the list was the one from the Rotary that was an article from the Rotarian. Janice used much of the information from that URL to finish her work.

Con't. from page 2

For those who noticed, the common thread was fishing, so the usual "Thank you's" were done and to the new member who does like to fish, was cast a line on fishing.

Closing President's remark was "There never was a horse that couldn't be rode and never a cowboy that couldn't be thrown".

As there are a few people in any organization that take pleasure in finding errors in others' work, intentional errata and omissions have been made throughout this document.

Thanks to those of you who have helped make this possible . . . *Your Editor.*

The glory of friendship is not the outstretched hand, nor the joy of companionship. It is the spiritual inspiration that comes when you discover that someone else believes in you and is willing to trust you.

MEETING

July 16th meeting was called to order by president Russ. John Dolisek gave an inspirational "It's Never to Late to Become What You Might of Been". Not bad for being told at 6 am today. Rolf Wessman did intro of visiting Rotarians — lots like to visit us! John also informed us that, like last year, the club will buy a lamb through 4-H at the fair. The lamb will go to the Salvation Army — gives good support to lots of people.

A sign-up list was passed around for supporting this weekly Bulletin at \$90.00 a month. This helps pay the postage, printing and after a year, my retirement.

It is a good way to let the membership know you support the Rotary and what your business is, in case someone needs your services.

The first month, president Russ has livened up our lives, through his fishing. We are also blessed, says Russ, that he is foregoing his usual Montana fishing trip so he can be with us on Thursdays instead of pulling trout out of his stream. Jerry thought the story sounded good. But, sniveling about missing vacation just so Russ could be with us has a price of \$10 bucks.

Bob Scott is really planning the SRKSEP visit and needs drivers and other help to show these kids a good time. The week planned for the kids includes a day at the fair — maybe they could pick out the lamb? Another day will be a bike ride, I guess Russ and John know one back road that would give our guests an eye full! Bob was also late, \$10.

Continued on page 2

“That’s Not My Job”

This is a story about four people named Everybody, Somebody, Anybody, and Nobody. There was an important job to be done. Everybody was sure Somebody would do it. Anybody could have done it. Nobody did it. Somebody got angry about that because it was Everybody’s job. Everybody thought Anybody could do it, but Nobody realized Everybody wouldn’t do it. It ended up that Everybody blamed Somebody, when Nobody did what Anybody could have.

The Board of Directors has approved the following for membership in the Santa Rosa Sunrise Rotary Club:

Casidy A. Ward - Classification: Oil & Gas Production

Any member who has an objection to the election of the proposed member shall notify the board in writing stating the reason for the objection within 10 days.

RUSTY'S RAMBLINGS

We just completed our first Board of Director's meeting last Tuesday. Not only were all the board members present, they were on time for a 7:00 am start! I am most pleased that we are off to such a great beginning. **Ross Andress** has agreed to chair the committee to develop a Rotoract Club at SRJC and **LuAnn** asked Dr. Ezbon Jen, Asst. Dean of Health and Life Sciences to act as faculty sponsor which he graciously agreed to do.

Several new members are already actively involved with committee work in Community Service, Vocational Service and planning new club activities. The board has approved one new membership application and there is one other pending. Keep up the efforts.

If you have comments, questions or request, please make them known to any board member of myself.

BOARD OF DIRECTORS

President-Elect	Shauna Lorenzen
Past-President	Art King
Secretary	Mike Kelly
Treasurer	Steve Herron
Community Service	LuAnn Poulsen
Club Service/Administration	Ralph Harryman
Club Service/Activities	Warren Smith
Vocational Service	Jim McCracken
International Service	Dan Lambert
Major Projects	Jeff Young

!DUES BE DUE!

Meeting, continued from page 1
Jerry could not defend him.

Steve Olson and **Lynn** are moon children, she is on the 17th and he, on the 20th. Both received cards and the donation. If you haven't visited us this month, for each birthday, a \$10 donation will be made to the Giving Tree for a gift for deserving youngster. Now could you think of a better gift? **Steve Amend** is going to surprise his wife on her birthday — no clues here. **Peter Treleaven** and his wife **Marie** celebrating their 18 years on the 19th — the years do add up.

Gary Bayless took a lucky guess about the Mystery Rotarian and it cost him \$5. **Tux** then took center stage and gave the condensed version of his life.

Several jobs in building custom homes lead **Tux** to

the developing land, a lot more rewarding and a lot less employees and problems. To put himself on the real good side, he likes to fish! **Tux** does have a branch office in Palm Springs area, on a golf course fairway. I guess he works those two extra weeks a year in "the office".

The speaker **Cassandra Van Buren**, from the Napa New Technology High School is one teacher full of excitement. The kind of excitement that produces success in students. A grant from the Napa Rotary of \$50,000 was a good start, but action and interaction of club members has proved to be an even bigger boost and supportive. The 250 students of Junior and Senior level have been carefully selected. Some students came as far away as Walnut Creek. The school and class rooms look and operate more like Hewlett Packard than a school. There are no bells. The students work at their own speed and the grades are discussed as a group. Their mascot is the visionary, no football team. But you can join in an arousing chess game on the Internet. Now because of the high technology, and close family interactions, there is no graffiti. But, I bet Post-it-notes are all over the place. Basic high school subjects, english and math are supplemented by MS Office, 97 Internship, Cisco, Windows and E-mail. The e-mail has no filter and trust is given to the students. Group discussions to solve problems, as they do in business, are a major part of grading. But each student must do their own work and self motivation and creating are nurtured.

To get more information or help the students or teacher, cassandra_van_buren@techhigh.napanet.net.

Pres Russ brought this meeting to a close with the statement "if you want an accounting of your worth, count your friends". Following with the closing statement, the president said "money can buy a dog, but only love can make him wag his tail" . . . next week.

FIRESIDE HOME NEEDED . . . One good room to fill with friends. Call **Nancy** for details, 823-9139.

Thank You Card. . . We received a thank you card from **Courtney Todoroff**, thanking us for the \$1000 toward her education.

 Something special — come see!

WHAT IS ROTARY ?

*Who Was Paul Harris?
founder of Rotary, but what else?*

Paul Harris was born in Racine, Wisconsin in 1868 but was raised in rural Vermont. He loved the outdoors especially hiking, skating and trout fishing. Paul was a bit "rambunctious" and was expelled from school, including military school. He studied at Princeton, worked in the marble business and received a law degree from Iowa in 1891.

Paul spent the next five years traveling to study life and the world.

California — worked as a reporter on the Chronicle

Worked his way through the state picking grapes; worked as a ranch hand and even acted.

Florida — was a night clerk in Jacksonville hotel

Sold marble throughout the "Old South"

Philadelphia — was a cattle hand on ship to Liverpool and back.

New Orleans — picked fruit, dredged oysters

Sold marble for 1-1/2 years

He always paid his own way.

Paul realized as he traveled that people lacked goodwill and were mostly strangers to one another and wanted to do something about this condition.

Back in Chicago he rented a suite of rooms, rented furniture, set up his practice and subleased the balance of the space. Business flourished but he missed the "country boy" and the simple friendships of home. One evening after dinner, with a friend, they strolled around and stopped into places of business where his friend introduced Paul to the proprietors.

Paul thought it would be a good idea to get together a group of business friends in a social setting. It would be a particular advantage if each represented a different trade or profession. His own clients were:

Silvester Schiele, coal dealer

Gustavus Loehr, mining engineer

Harry Ruggles, printer

They all met the evening of February 23, 1905, along with Hiram Shorey, a merchant tailor at Gus' office. They began to meet regularly and brought others into the "club". Since the plan was to meet in rotation at each other's offices, it became "Rotary".

They wanted to be friends and helpful to one another.

He was not the first president (Schiele was). Other clubs began to form with service arising from friendship, the unifying theme. In 1910 representatives from 14 independent Rotary clubs met in Chicago and became Rotary International with Paul as the first present.

Meeting Notes 'n Notables

The July 30th meeting was called to order by president Russ Lockner. Steve Olsen led the pledge and Steve Davis gave us an inspirational thought to start our day. Randy Seelye introduced the visiting Rotarians and all the local clubs were represented. After the guests were introduced and welcomed, including our speaker Spencer Flournoy, President Russ gave us an informative history lesson about the Rotary emblem - how it was developed, and the underlying symbolic meaning.

Margie England announced the upcoming Sonoma County Legal Aid 1st Ever Golf Classic tournament to be held on September 10th at Rooster Run Golf Club in Petaluma. She was fined \$5 for a 'non-Rotary' announcement.

When Randy Seelye celebrated his wife Katherine's July 24th birthday, he really did it in style... with a dinner cruise in Paris!

Keith Taylor's wife, Carmen, celebrated her July 30/31 (?) birthday(s) by receiving a beautiful new fishing outfit from her beloved. The fine was reduced \$3 because the gift was 'fishing related'. This prompted a host of 'fishing related' fine reductions by President Russ.

Scott Holder's fine for a trip to Hawaii was discounted \$3 because he went fishing for Marlin...

...and Steve Olsen got a fishy fine reduction for a week-long fishing expedition to the Lake of the Ozarks in Missouri...

...which prompted Randy Seelye to try to get his fine for the trip to Paris reduced because he 'tried' to order fish on his dinner cruise... but he got fined another \$3 for participating in the Paris riots.

Leroy Carlenzoli hi-fived his son's 20 lb. Carp which was shot from a boat! He paid a discounted \$3. And then, Leroy purchased a \$5 Ingram's Chili Bowl 'free' meal ticket donated by either Art King or Archie Julian or Russ Lockner. Ingram's infamous El Dorado strikes again!

...and so goes the fishing report for this week.

Cowboy Wisdom for Thursday, July 30th

"The easiest way to eat crow is while it's still warm - the colder it gets, the harder it is to swallow."

RUSTY'S RAMBLINGS

The PAC (President's Advisory Committee) is a group of the past president's of Santa Rosa Sunrise Rotary Club. They meet once a month for lunch as a "sounding board" for the current president. This is the forum where I can ask for and receive the "wisdom of my predecessors". The only rule seems to be that the current president has to fulfill their term no matter what (which will not be a problem). We had lunch last week at Ingram's chili farm and managed to get through with only two orders of TUMS.

We discussed a "mentorship" program which we want to begin shortly. The basic idea is to augment the sponsor's role by having a mentor assigned to each new member. Even those new members who have had prior experience in a Rotary Club find themselves in a strange environment, new faces, new programs and different areas of emphasis. The goal is to assist each new member in feeling at home and finding a direction that they wish to pursue in terms of committee assignments and club activities. More about this later.

NEW CLUB MEMBER NEEDS HELP!

Ross Andress updated us on the progress of the new Sunrise Rotary sponsored Rotaract Club at SRJC. He needs assistance to help make telephone calls to past district-wide Interact members announcing a meeting to be held on August 12th in Baker Hall, Room 1830 at 2:30. All Rotarians are welcome to attend - contact Ross and he will see that a Parking Permit is faxed to you. If you can help Ross with the telephone calls, contact him immediately at 585-3711.

1st FIRESIDE MEETING

Wednesday, August 13th
at the home of Margie England

This is not only our first Fireside of the year, it is also a reception for our District Governor, Lou Delsol and his wife, Gladys.
More later, on time and directions.

Club secretary, Mike Kelly happily reports that the newly purchased Clubmate software is year 2000 compliant.

WHO IS THE MYSTERY ROTARIAN?

There's got to be an acceptable excuse,
To get out of this chore I feel is abuse.
I told them; "I'll pay any fine.
To get out of this Rotary duty of mine."

They said; "No dice, this is part of the price,
You agreed to pay and nothing else will suffice."
If I should happen to show up to do this ugly thing,
You'll need to know about me to avoid the sting,
Of guessing wrong who will give it a fling.

The oldest of five, I grew up kind of rowdy.
I attended Western High School, in Orange County.
There my favorite subjects were English and Recess.
I learned early that it's important to meet the test.

Along the way I married Pete and became pregnant,
And, I couldn't just sit, and be quiet and stagnant.
So I went back to college and earned my degree.
Also, I had a beautiful boy baby.

Peter is now 13 and his brother, Scotty is 11.
They are really good kids, and I'm glad they're mine,
Though I admit being a good parent takes a lot of time.

I went to Empire, as I couldn't stop with just one degree
I learned how one could get paid to practice professionally.
My hobbies are very few as anything my family may do
is my favorite thing to do too.
One thing is for sure, I hate to cook,
Fortunately that household chore my husband took.

Six ladies and I like to play Mah Jongg.
Once each year we go to Tahoe, to play along.
But every year it's planned or we just happen to forget,
To take our Mah Jongg Set.

I like my work because it is important that it be done,
I like not to have to dress up, and it's a lot of fun.
On High heels I'm not really keen
I may have said "...they make me mean."

I have a couple of goals I would like to achieve,
Before this life ends and I leave.
One is, in 5 years to retire and get a reprieve.
Another is to learn to play golf some day,
Not just in any fashion, but in the proper way.

Well that's all I have to say
Until that unfortunate day
When I will stand and say I'm the MR.
I only hope my presentation is up to par.

-At an upcoming meeting, you may be called on to guess
And your five dollars, may be put to The Test.

HISTORICAL BACKGROUND

In 1865, a young samurai student, Kanaye Nagasawa, left Japan to learn what made the West economically strong and technologically advanced. Ten years later, he founded a small winery in Santa Rosa, California, called the Fountaingrove Round Barn and Winery. Soon he became known as the grape king of California. Nagasawa came to California to learn, and stayed to enrich our lives. Both our countries owe much to this Japanese warrior - turned businessman.

It has been more than fifty years since Nagasawa's death. We hope this cultural exchange will inspire many life-long friendships and strengthen the bonds of world peace.

The Board of Directors has approved the following individual for membership in the Santa Rosa Sunrise Rotary Club.

DR. EZBON JEN

Classification: Public Health Educator

Any club member who has an objection to the election of the proposed new member shall notify the board in writing within 10 days.

JEFF YOUNG	Major Projects

CROSS CULTURAL COMMUNICATION WITH SRKSEP '98

In 1987, the Santa Rosa-Kagoshima Student Exchange Program (SRKSEP) was founded as a joint venture of the Friends of Kagoshima and the Santa Rosa Sunrise Rotary Club. Santa Rosa Sunrise Rotary is now the sponsor. The purpose of SRKSEP is to send exchange students to Japan and to host exchange students from Japan in order to improve the cultural understanding of our young people and to broaden their horizons. The program sends students to Japan one year and the following year receives students from Japan.

SRKSEP - THE TWELFTH YEAR

The members of the 1998 Santa Rosa-Kagoshima Student Exchange met their host families on July 31st. Homestay and planned activities will fill the days until departure, August 16th. The seven girls - Monica Miura, Mai Morimoto, Emiri Oyama, Sayaka Suwa, Tomoko Tamura, Mami Watita, Natsuko Yamanaka - and three boys - Yohei Kogi, Youhei Ueda, Takuyuki Wakayama - will be accompanied by Mr. Tsuyoshi Matsudo, Escort.

Prior to coming to Santa Rosa, the SRKSEP '98 students traveled for seven days. Upon arrival in Los Angeles on July 25th, the students were met by our escorts: Laurie Hall - SRKSEP '97 escort; and Sally Kobayashi, SRKSEP '97 member. Visits were made to California's favorites, Disneyland and Yosemite, followed by some of the towns of the California Gold Rush. They will pan for gold in Jamestown and see the Capitol and Old Town in Sacramento.

This visit marks the twelfth exchange between our cities through this program - sixty-eight Kagoshima students and forty-nine Santa Rosa students have had the privilege of experiencing another culture.

Andrea Lambert, featured guest speaker at our meeting on August 6th is a graduate of our SRKSEP '89 program. Following her graduation from college, she spent three years in Japan teaching English at a Japanese high school. She just returned to Santa Rosa with a positive understanding of Japanese culture.
