

Our goal is to create and support consistent, positive, one-to-one relationships between a teenager and an adult volunteer, who will be an advisor and friend on the journey toward becoming a successful and contributing adult.

Be a Mentor

Why mentoring?

Students need guidance with long-range planning. Most teens focus on the need to graduate, and do not give sufficient thought and effort toward their plans following graduation. Youth need positive role models who are on the pathway toward or have successfully completed their education, pursued a career, gained financial security, and are living a balanced and happy life.

How am I trained?

Our Web-based training program, Mentoring Central, is interesting, interactive and informative. You can take the course on your own, or you can attend one of our classes.

When and where do we meet?

All mentoring takes place with youth at the Manchester Junior-Senior High School campus, during the Jobs for America's Graduates class times, during lunch or study hall, or before and after school.

How do I get stated?

Go to our Website, download an application, fill it out and send it in.
