On Monday, May 23, representatives from the American Red Cross of Northeast Indiana presented "Hands Only CPR" to our Rotary Club. The American Red Cross offers a variety of services beyond typical "blood services." Humanitarian services provide food, clothing and medication to families who experience a fire or other emergency.

Our own Kay Ostrum, along with Erin and Monica of the American Red Cross, informed us that cardiac arrest is common and can happen to anyone, regardless of age or gender. One of our very own Rotary Members, Randy Roberts, actually went into cardiac arrest in June of 2009 while visiting his family in the Chicago area. His son in law was able to save his life by performing CPR on him.

The new method known as Hands-Only CPR can be performed by a by-stander who is not necessarily CPR certified. It can be used to save adults who are unresponsive and not breathing normally. Please note: Hands only CPR cannot be used on children or infants. For those of you who were unable to attend Monday’s meeting, instructions on how to perform Hands-Only CPR are included in this newsletter.
Next Meeting: June 6, 2011

What do you get when you put almost 19,000 Rotarians from 151 countries together in New Orleans for a week? The Rotary International Convention 2011, that’s what! And what a week it was! First off, let’s talk about the venue. The Ernst Morial Convention Center in New Orleans is the 6th largest convention center in the United States. At over a mile long, it covers 11 square blocks and 3 million square feet of space. It is massive! The sheer size and expanse of the building is something you came to fully appreciate every day, as you moved between the main hall (Plenary sessions), exhibitor hall (House of Friendship) and the various event and workshop rooms. I wore my running shoes from the second day forward! Second, I’d like to share with you
what I'll call the “quality of the show”! The 2011 RI Convention was over five years in the making and the attention to the details was very obvious. From the guides who were everywhere and always available to point you in the right direction, to the quality of the presentation media, the decorations, the music and entertainment choices, the meeting materials - everything was first class and top notch. Then you had the presentations and workshops. Who’s going to argue with the choice of Bill Gates as a keynote speaker on Rotary International’s Polio Eradication Initiative? I found the speeches by current RI President Ray Klinginsmith (United States) and RI President-Elect Kalyan Banerjee (India) to be highly engaging and informative, as well as entertaining! (Ray has this thing with “Cowboy Logic”.) Banjeree, who will take office on July 1st, said Rotarians should be guided by three emphases – family, continuity, and change. Rotary International is clearly aware of the strengths, weaknesses and opportunities of our organization as we move forward. One reoccurring theme through many of the presentations was “membership” – declining numbers, an aging membership and the changing demands and expectations of the next younger generation of incoming Rotarians. RI is very hard at work providing direction and leadership to ensure the health and viability of our organization!
The exhibitor area – The “House of Friendship” - gave clubs, districts, Rotary Action Groups, Rotary Fellowships and outside aid organizations a chance to showcase their service projects and fellowship opportunities. I can now say that I am an official member of the “International Fellowship of Motorcycling Rotarians” and the “International Skiing Fellowship of Rotarians”. (They both run some absolutely amazing trips!) There are also Fellowships for golf, pilots, bird watchers, musicians and many, many others! When one walked through the rows and rows of project booths (knowing full well that what was on exhibit here was but a minute fraction of the total), you came to fully appreciate the truly unbelievable scope of all the good that Rotary and Rotarians do around the world! As a speaker from Africa stated in his presentation, Rotary is an “Organization that allows ordinary people to do extraordinary things”! How true!

It was amazing that whether you were at the conference, in the hotel, walking on the street or sitting at a bar, when you met another Rotarian – regardless of where they were from – it was like meeting an old friend. Other than the introduction, you already knew who they were and what they were about. You never met a Rotarian you didn’t like!

The final highlight of the conference was New Orleans itself. Wonderful restaurants, museums and Bourbon Street – famous or infamous, it was your choice! Whether it was meetings by day or entertainment by night, New Orleans provided the perfect backdrop for the Rotary International Convention!
RI signage greeted us in the New Orleans airport terminal

Who else but the Dracula Brothers manning the Blood Donation booth!

Yes, there was a room big enough to fit all 19,000 attendees
HANDS-ONLY CITIZEN CPR
FOR WITNESSED SUDDEN COLLAPSE

1. CHECK and CALL

1. CHECK the scene, then CHECK the person.
2. Tap on the shoulder and shout, "Are you okay?" and quickly look for normal breathing.
3. CALL 9-1-1 if no response.
4. If unresponsive and not breathing normally, BEGIN CHEST COMPRESSIONS.

TIP: Whenever possible use disposable gloves when giving care.

2. GIVE CHEST COMPRESSIONS

1. Place the heel of one hand on the center of the chest.
2. Place the heel of the other hand on top of the first hand, lacing your fingers together.
3. Keep your arms straight, position your shoulders directly over your hands.
   • Compress the chest at least 2 inches.
   • Compress at least 100 times per minute.
   • Let the chest rise completely before pushing down again.
5. Continue chest compressions.

3. DO NOT STOP

Except in one of these situations:
- You see an obvious sign of life (normal breathing).
- Another trained responder arrives and takes over.
- EMS personnel arrive and take over.
- You are too exhausted to continue.
- An AED is ready to use.
- The scene becomes unsafe.

AED

AUTOMATED EXTERNAL DEFIBRILLATOR

If an AED is available:
1. Turn on AED.
2. Wipe chest dry.
3. Attach the pads.
4. Plug in connector, if necessary.
5. Make sure no one is touching the individual.
6. Push the "Analyze" button, if necessary.
7. If a shock is advised, push the "Shock" button.
8. Perform compressions and follow AED prompts.

Go to redcross.org or call your chapter to sign up for training in full CPR, First Aid, Babysitter's Training, Pet First Aid and much more.

Developed with the support of the American Red Cross Badger Chapter.
