

# Membership

Rotary International is the association of Rotary clubs around the world. Rotary clubs select their own service projects based on local needs and requirements.

Clubs work on projects relating to health, hunger, environmental concerns, literacy and vocational assistance, drug abuse and assisting senior citizens and young people.

Club members support projects internationally, through their own contacts with Rotarians in other countries, and through participation in the programs of The Rotary Foundation.

Membership in a Rotary club is by invitation and is on the basis of one representative of each business and profession. This classification system ensures a wide cross section of community representation.

Clubs meet weekly for fellowship and interesting and informative programs dealing with topics of local and global importance.

The real work of Rotary takes place before and after the meeting, when Rotarians plan and carry out a remarkable variety of humanitarian and educational service projects that touch people's lives in their local communities and our world community.
