

*The University of Texas at Dallas Office of Research and Innovation  
with the Richardson Rotary Club presents*

# RESEARCH INNOVATION Spring 2024 Series

Please join us as we continue to **Explore Research Innovation at UT Dallas** with a three-part spring series. Community members will learn more about research that takes place at UTD as prominent researchers showcase their science and centers located at the IQ.

Wednesday  
**FEBRUARY 21**

**Dr. Walter Voit**

**Center for Applied AI with UT  
Dallas Expertise (CAIQUE)**

CAIQUE showcases emergent AI research, 3D-modeling of manufactured parts (including medical devices), data structure, analytical methods, and much more.

Wednesday  
**MARCH 20**

**Dr. Rym Zalila-Wenkstern**

**Center for Smart Mobility (COSMO)**

COSMO advances solutions for the engineering of smart, multimodal cyber transportation infrastructures to improve safety and enhance mobility for drivers, bicyclists, and pedestrians.

Wednesday  
**APRIL 17**

**Dr. Anne Balsamo**

**IQ Design**

IQ Design creates media rich experiences that engage, educate, and entertain audiences, fuse technical expertise with design thinking to create evocative interactives, and much more.

Doors open at 5:00 PM. A light dinner will be served. Presentations begin at 5:30 PM.

**Richardson Innovation Quarter (IQ)**

1302 Collins Blvd. Richardson, TX 75081
