## SPEAKER

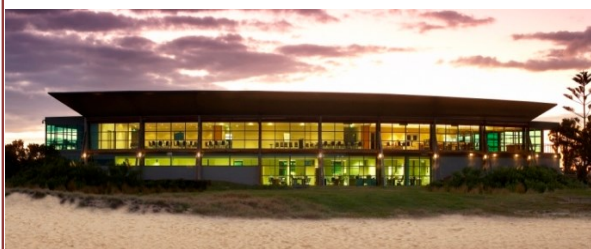

**Melissa Lovell**

## YOUNG WOMEN'S PROJECT

This unique program designed by St Kilda Gatehouse with experience working with women involved in commercial sexual activity, targets young women aged 12 - 25 years old vulnerable to Commercial Sexual Exploitation, a trajectory that those who have experienced childhood trauma, abuse, family breakdown, poverty, and a lack of traditional supports are all too often at risk of.

The long-term vision is that the Young Women's Project will create a holistic model of intervention through providing an open-door Centre with outreach support, staff to support young women, and partnerships with other youth and community organisation's to address the specific needs of these vulnerable young women to begin their recovery.

The Project will encompass a community based open-door Centre with 'wrap-around' flexible outreach support and community services, whilst also providing a safe place for young women to partake in group work initiatives.
