

IS IT ALL IN THE GENES?

International Women's Day GLOBAL BREAKFAST

Friday March 8, 2013

7am for 7:15am, Crown Palladium

Proudly presented by:

Join us as our celebrity panel debates the question "Is It All in The Genes?"

- Are men and women innately programmed differently?
- Does biology determine our success for differing job demands?
- Do good genes count more than a good CV?

With over 700 people in attendance last year to hear a panel of prominent men and women, this year you can again expect engaging debate, plenty of laughs and a better understanding of the issues affecting women in the workplace.

What's more, **proceeds go toward supporting Violence Free Families**, an initiative working to prevent domestic violence in the community.

Will you be there to see the battle of the genes?

To book, visit www.rotarywomen.org.au or call Kerry on 0411 597 690.
