Reach Within to Embrace Humanity

## GUEST SPEAKER – Professor Patrick McGorry, AO A 21st Century Approach to Mental Health Care

Patrick D. McGorry is Executive Director of Orygen Youth Health, Australia's largest youth mental health organisation, comprising a world-renown research centre and a clinical service targeting the needs of young people with emerging serious mental illness. He is also Professor of Youth Mental Health at the University of Melbourne and founding member of the National Youth Mental Health Foundation (headspace) board.

Prof McGorry is a world-leading researcher in the area of early psychosis and youth mental health. His innovative, ground-breaking research has played an integral role in the development of safe, effective treatments that have helped transform the lives of tens of thousands of young people the world over.

Orygen Youth Health's early psychosis service, known as EPPIC, was founded by Professor McGorry in 1992, and has been hugely influential internationally. Its evidence-based model has been exported to many countries, and early intervention in psychosis has become one of the major growth points in international mental health reform. Prof. McGorry has played a major role in mental health reform in Australia as a key adviser to the Because mental health matters: Victorian Mental Health Reform Strategy 2009-19, and is frequently asked to advise on youth mental health policy internationally.

Professor McGorry also has interests in the areas of homelessness, refugees and torture survivors, youth suicide, youth substance use and the treatment of emerging personality disorder.

Prof. McGorry has published over 300 papers and book chapters, edited five books, and has been the recipient of numerous awards, including: Australian of the Year 2010, the Melbourne Award for contribution to community in 2009, the Castilla Del Pino Award in recognition of his significant contribution to the field of Psychiatry in Spanish-speaking countries in 2009, the Australian Government Centenary Medal in 2003 and the Founders' Medal of the Australian Society for Psychiatric Research in 2001.

### Annual Paul Harris Breakfast

This annual breakfast has been held since 1992 and regularly attracts more than 200 Rotarians and guests.

Rotarians are able to join fellow Rotarians in a District-wide event and be able to support the Rotary Foundation Programmes.

It is also an excellent opportunity to bring along partners and other guests who might either be considering joining Rotary or just being interested in listening to our eminent Guest Speaker.

### The Rotary Foundation

The Rotary Foundation is one of the largest private foundations in the world and 100 percent of funds received are used for humanitarian programs to improve the quality of life, provide health care, clean water, food and other essential needs primarily in the developing world.

The Foundation also funds a large number of education programs, Rotary Centres for International Studies in peace and conflict resolution and the very successful PolioPlus program that aims to eradicate polio from the world.
