#### This Week - Paul Zappa

## Paul Zappa of Be the Hero Wednesday 31st August

The BE THE HERO is a violence prevention program designed for and targeted at young men? A Victorian Women's Trust initiative supported by the Rotary Club of Albert Park, the program is being rolled out to teenagers in schools all over Victoria. Supporters believe that if the program changes the life of one young man by influencing him not to follow his father's violent role modelling, then it has achieved its objective.

The Program Aims to:

- Provide a greater understanding of the extent of violence against women.
- Help identify ways young men can safely be involved in taking a stand against violence against women.

Gender stereotypes can cause some men to think they have power over women, which sometimes leads to violence and abuse. By making young men more aware of gender stereotypes, paradigms are challenged. BE THE HERO encourages boys to speak out. This can be a difficult step as it can take courage to forsake someone who is experiencing family violence to seek help. BE A HERO also teaches young men ways to support a family member or friend who is experiencing family violence.

#### Tips

by Kerry Kornhauser

## President's Tips for this Week

1. The Children's Clothes for the Remote Communities supporting Worowa Aboriginal College collection ends 31 August
2. The Tree Planting day was a huge success with over 7,000 trees planted
3. Family Violence affects 1 in 4 women...how can we reduce these numbers?

Our speaker Paul Zappa will be discussing how we make a difference

#### Last Week - Stephen Mayne

Stephen's presentation was the highlight of a hugely successful evening attended by over 90 people. Stephen who is best known for his shareholder activism, entertained the audience while making a number of insightful points about Australia, the economy, and the impact of corporate culture and government policy.

Stephen identified three key elements that must be attended to for good outcomes that applies across many areas; these were 1) Leadership 2) A System that allows good outcomes and 3) The transparency that exists and the ability to scrutinize the decision making, processes and outcomes. He went on to provide a number of examples from ABC learning to the State Governments of Australia dependence on gambling revenue. Thank You Stephen for your thought provoking presentation.

**Rotary Environmental Tree Planting Day**

*by Loretta Michaelson*

**Environmental Tree Planting -A Great Day! Sunday 21st August**

Several members along with partners and family attended; the Annual Tree Planting Day at Broadford last Sunday. Rick and Kerry Kornhauser, Henry and Loretta Michaelson ; Deb Ren-Shaw Jones, Rob and Daughters, David Gorman worked together with members of other clubs and organisations to plant 7000 trees provided at seedling stage.

Last year they had one of the best success rates being 98% which was great to hear as they had some not so good years during the drought. Sunday being the most magnificent warm sunny winters day, though a little wet and slippery underfoot was most successful. All enjoyed the most delicious lunch provided before heading home in a chauffer driven Claremont Homes bus by David Gorman.
