

Recent Client “Thank you’s” from Star Health:

Hi G,

I have spoken with (client) today. English is his second language, but he wanted to say “I would like to thank them, and thank you very much”.

With the help of his support worker, (client) was able to purchase much needed bed sheets, pillow, and necessary clothing (some warm clothes, new shoes, and underwear).

Many thanks to the Rotary – it made a huge difference to (client)!

---

G,

I want to say how surprised, touched and grateful my client was when I surprised him with the news of the \$100 Rotary have donated towards buying shoes that will help him walk more easily.

This young parent needs better shoes to help keep them walking safely, and the donation will just make it a little easier to manage to buy them, while still meeting high pharmacy costs and the costs associated with raising children.

When I mentioned that I had been able to access the money there was an audible intake of air, followed by “Oh please say thank you for me”.

Regards,

B
