OVERCOMING **ADVERSITY** CONCUSSION & HEALING

Harley Rose Taich was born and raised in La Jolla, California. Harley began swimming at five months of age and routinely enjoyed the warm waters of Hanalei Bay. Surf, sand and the mother ocean provided comfort to Harley and she was filled with great joy to receive a pink surfboard on her fourth birthday which her father shaped. Harley surfed competitively from age eight until age fifteen when she sustained a

Traumatic Brain Injury (TBI) during a competition. Four years post injury, Harley no longer competes, but support, encourages and shares her story with others suffering and recovering from similar injuries.

Initially, it was her intention to educate others of brain injury awareness, however she quickly realized most intentions are limitations. Intentions come from the ego and actually limit what is possible in life. Once Harley no longer felt victim

of this tragic accident, she felt more powerful than she ever felt possible and was able to direct her life in the direction she wanted to go. Harley is not in control, but she has choices and has received inspiration greater than any ego. Harley is now an inspiration to many around the world, providing daily feedback and support to many inquiries she receives on her blog www.itsharleyrose.com, Facebook and headsup4kids.com site daily.

President Bev opened the meeting -- Hurrah for all the teachers, today we celebrate the 2016 Educator of the Year award! Here to present the award is our ROTD, our always smiling **Dave Wiegman**. ... **Dave**

-- philosophizing on life, love, and values noted -- It's my first Mother's Day without my mom, we just lost George at 92, **Father Wayne** baptized both my daughters, now 19 and 23. We are all family. I took a test to determine my strengths, not my weaknesses. My greatest strength is GRATITUDE! 95% of information is negative. But you can become happier if you tell someone three things you are grateful for during ten days. Do it and you will see! **Denny** got up once and said his favorite word is gratitude. I am grateful for that and here's a cup for **Denny** from Denny's! Nice **Dave**!

President Bev -- Before the educator award, some announcements...

Please sign up for the San Diego Oasis project on Saturday, June 4 at 9:00am to do carpet cleaning. Also, please sign up to provide ads in our next club membership catalogue, we need the money to pay for the new directory! ... **Rick Clark** -- Miramar project is now on May 21, check the sign-up sheet and don't forget the Rotary logo handout that is needed to get onto the base. ... **President Bev** -- **Keith Jeffers** has returned to the club!! Welcome back!

Rick Binder introducing guests -- Welcome to returning SDSU Rotaractors! If you don't continue to show up, you will need to do push-ups! ... **Bonnie and Krishna** -- Meet our distinguished visitor **Anthony Richards**, past DG from Lahore, Pakistan. ... **Pres. Bev** exchanges banners and **Krishna** reminds us of Rotary's 100th anniversary in 2017. **Anthony** gives **Bev** a polio

Ripple Effect

cap saying polio WILL BE eradicated in Pakistan. And, in more good news -- the next Lahore DG will be a first-ever woman!! Big applause from everyone. ... **Jim Davies** -- we have Thank You gifts for the fundraiser worker bees: LJGT official bottle openers for **Tony Grillo**, **Erik Mjoen**, Tom Hinton, and Wayne Davis!! For **Alex Monroe** -- an exclusive, invaluable metal wheel with Rotary sticker in honor of the Founding Father of the Festival! Plus some imperial beer to go. **Alex** returns compliments to **Jim** for a great job!! Party to celebrate at Malahat on the 25th! Sign up!

Members sent positive energy to **Emidio's** wife **Meg** who is facing some medical challenges, but now is doing better.

Erik introduced the Preuss Student of the Month -- **Elisabeth Guerrero**. We recognize students who have overcome obstacles and have become outstanding students involved in Volunteer work. **Elisabeth's** dream is to study criminal justice and work for the FBI. Good luck!

Linda Andrews -- 2 more weeks left to bring in books for the San Diego Literacy Program. Education starts with reading. **Pres. Bev** -- and now **Dave** will present the Educator of the Year Award!! **Dave** -- this is the 17th Educator of the Year Award. **Bill Busch** has run it for a decade! I'm his substitute, in **Rich Papike's** jacket! Since I'm new at this,

I have signs telling you when to laugh and when to say "so true." And since we are talking education, I'm trying to figure out how to pay for my kids' college education. They are smart enough to get into great colleges, but I'm middle class enough to be sucked dry. Now to the educators. They have a ripple effect on people's life, like a boulder thrown into water, as opposed to a pebble... **Steve Brown** is a Rotary boulder...

Present are the principals of the four schools where the finalists teach. **Jeff Olivero**; University City High (UCH), **Scott Barton**; the Preuss School, UCSD, **Kimberly Moore**; Doyle Elementary School, and, **Gary Krahn**; La Jolla Country Day School (LJCD). A number of family, friends and previous award winners are present. ... The Finalists are: **Richard Norton** (UCH), **Krista Bartlett**, the Preuss School, **Hanna Wong** (Doyle), and **Chad Przymus** (LJCD.) All amazing educators, loved and respected by students and parents, and with high educational impact on the children's' lives. They are competing with 600 teachers for this award!

... and the winner is **Krista Bartlett** at Preuss!! **Krista** is making a significant difference for students with learning disabilities, such as auditory processing disorder and Duchenne Muscular Dystrophy. Her students take on between 4 and 10 AP classes each! Only 2 percent of kids with disabilities will take on 1 AP class nationally! Congratulations **Krista**!!

Dave's final joke: When I went to school as a kid, my dad used to say "get 100", pause... or two 50s!!!

I grew up in Pasadena, the home of the Huntington Library, home of so many classic portraits. As I was growing up, my parents always made portrait photography part of our lives, as it had been when they were growing up.

As my own children grew, I developed a deeper appreciation of how important those photographs had become in my life. Because my parents passed away when I was in my 20's, these memories of my family have become my own link to the past, and a way my family now can connect with their history.

As my interest in photography grew, enhanced by a degree in the Classics, he also developed an interest in portrait painting, especially studying the work of **Sargent, Renoir, Cassat** and **Rockwell**. Trips to galleries in the Louvre and Orsay, the Getty, the British Museum and Chicago Art Museum gave me the opportunity to absorb how other portraitists created their looks.

My early photographic career, too, instilled the val-

ues of composition as well as simple but effective lighting in the creation of portraits. Work with masters like **Philip Stewart Charis, Monte Zucker** and **Dean Collins** honed the look. Instructing other photographers around the country, writing for the **PROFESSIONAL PHOTOGRAPHER** and earning the title of Craftsman Photographer taught the value of studying my craft.

I started photographing weddings from my dorm room at the Claremont colleges back when Nixon was president and film was the only way to record images. A great deal has changed since 1968, but my fascination with photography, and ultimately the stories of the people I have photographed, has made every day of my 48 years as a portrait photographer as interesting as the first. ***I consider myself very fortunate to be involved in what I love doing every day.***
