Luke Ervin was the Rotarian of the Day and he shared photos of his family, his joys and his sorrows. He proudly announced that **he has found his niche in our Rotary club** with working on the corporate sponsorships for our Quintessential Festival, serving on our board and partnering with Miramar Rotary Club on the NCO sword ceremony. Professionally, he recently learned about succession planning for business owners and will be advising clients in that area.

Michael Slentz introduced our guests: Lisa Miller from Club 33 and a plethora of Rotaractors!

Jim Davies talked about the October 13 Paint Project at the San Diego Police Department (4230 Spruance Road). This is always **a great project and a super chance to work on our art talents**. Please sign up and we need some room captains.

Linda Andrews is still seeking out children's books and funds to support the book drive. **Jacquie Reilly and Bradley Day** talked about the art walk on the UCSD campus that will take place tomorrow. Sounds like fun. Meet at the Gilman Parking Structure at 9:45 am. **Irwin Rubenstein** talked about the International Cafe on the UCSD campus on October 5 from 11:30 am to 1:30 pm. **We need a few good people to help serve lunch to the students**.

Our newest Rotarian **Kaci Madden** talked about the Surfers

Unite project that will take place tomorrow at 7:00 am helping 100's of kids surf.

President-elect **Kim Schafer** talked about the Rotary Leadership Institute that begins tomorrow. It is a **great opportunity for current and future leaders to learn more** about the details of Rotary.

Sandi Rimer asked us to watch our club website. One of the new features is that you can now click on a link from our website and go directly to the district website.

Alex Monroe, our club Rotary Foundation Chair, talked about the magic envelopes that were passed out today. We are looking for every member in the club to donate something to The Rotary Foundation by December 31, 2018. Go online or give your checks to **Pam Russell**.

October 27 will be a holiday (costume???) party at the Braille Institute. Mark your calendar and more details will follow. The December holiday party is scheduled for December 15. Apparently **Rick Clark** will be planning it???

Our speaker for the day was John Decker, Director of Programming at KPBS. He talked about "Explore San Diego", an effort to showcase content about San Diego. Through surveys, they learned that 60% of members give because of local programming. While there is programming we can watch

anywhere, what showcases San Diego's uniqueness? KPBS has developed over 500 individual episodes of content reflecting the community and creating a sense of place. They create more local content than any other organization in town. KPBS' goals are to **increase a sense of place, increase diversity of people, ideas & perspective**, increase profile as source of high quality content and increase viewer support.

One of the questions asked was where to find missed programs, in particular a show about Black's Beach. <https://Video.KPBS.org/> will help you find any show you might have missed. And in the case of this particular feature, there is only a "little bit of nudity". When asked, John revealed that his favorite program is "This American Life". Check it out.

It turns out that **Alex Monroe** is a NPR Junkie and has withdrawal when he can't listen. He did admit that he doesn't listen during fundraising campaigns, but also announced that KPBS is one of two (read The Rotary Foundation) charities that he supports.

I swear, **President Rick** finds the best jokes to close out our meetings. It is always **one of the many highlights of our weekly meeting**. Always a great way to start the weekend!

I started out as a poor white child.

Oh wait, that's Steve Martin's bit. OK, I started life as an only child, and I've kept that going. Yes, I was a spoiled only child, the only son of a Cadillac executive/Marine colonel and my classic '50s mom. I went to a boys' prep school. My draft call number was 366, so I decided to take a degree in classical languages, and run a photography business for fun. I've been doing that for 50 years. Keane Studios now has two distinct brands - high school seniors, photographed primarily by my assistant, and Legacy, the high end brand I started three years ago, which I photograph exclusively.

I started photographing weddings from my dorm room at Claremont Men's College back when Nixon was president and film was the only way to record images. A great deal has changed since 1968, but my fascination with photography, and ultimately the stories of the people I have photographed, has made every day as interesting as the first. I consider myself very fortunate to be involved in what I love doing every day.
