PUBLISHED WEEKLY BY THE ROTARY CLUB OF YARMOUTH

Vol. 33 No. 36

March 24, 2023

The Main Event

Laurie Ruzala - Town of Yarmouth Water and Wastewater Superintendent

Water System Infrastructure

- 24 groundwater wells & pump stations
- 17 corrosion control facilities
- 3 storage tanks: German Hill, Sandy Pond, Prospect Hill
- 280 miles of water main
- One service zone
- 2,000 hydrants
- 3,400 gate valves
- 16,800 service accounts
- Pumped a total of 1.37 Billion gallons of water in 2022
- 2022 Maximum day - 9.4 million gallons

What is PFAS

Per- and polyfluoroalkyl substances (PFAS) are a family of chemicals used since the 1950s to manufacture fire-resistant, stain-resistant, water-resistant, and non-stick products.

Studies indicate that exposure to sufficiently elevated levels of certain PFAS may cause a variety of health effects including developmental effects in fetuses and infants, effects on the thyroid, liver, kidneys, certain hormones and the immune system.

Massachusetts began regulating 6 PFAS contaminants in drinking water in 2021.

The Massachusetts mcl for combined pfas6 is 20 ppt.

Water Conservation Policy

Water conservation policy approved by Board of Selectmen in June 2022 after the loss of three wells due to pfas.

The Purpose of the water conservation policy is To protect, preserve and maintain the public health, safety, welfare and the environment in the Town of Yarmouth by ensuring an adequate supply of water for drinking and fire protection and to protect the quality and quantity of water in local aquatic habitats such as ponds, rivers and wetlands.

Water Conservation Measures:

Water Use	LEVEL 0: Normal	LEVEL 1: Mild	LEVEL 2: Significant	LEVEL 3: Critical	LEVEL 4: Emergency
Lawn Watering In-Ground Irrigation Systems	Voluntary odd/even watering before 9am and after 5pm	Max 2 days/week watering permitted before 9am or after 5pm.	Max 1 day/week handheld watering permitted before 9am or after 5pm.	Prohibited	Prohibited

Help Needed—See Steve Albrtight

Newest Member - Chris Morin

President Roby initiated our newest member Chris Morin at today meeting. Chris was sponsored by Jill Albright,

Chris was a speaker several weeks ago on behalf of Independence House. She felt welcomed from day 1 as a speaker and with retirement in her future she wanted to do more to become part of the community she lives in. She looks forward to becoming an active participant in our organization.

Yasmine Afram—DY Rising Star

Yasmine is a member of the National Honor Society, the lacrosse team, and most proud of her Art passion. She has done several different internships and has learned that she also has a true love for working with children.

Clay is her favorite medium to work with and hopes to become an art therapist. Currently she has been accepted to all 5 of her college choices.

- \$\$\$\$ Happy Bucks \$\$\$\$**
- Barbara Adams** – Good to see Mike Duffy back, DY School Concert
 - Phil Morris** – For the Speaker
 - Lou Preziosi**– Welcome Chris Morin new member, DY School and Rising Star, Speaker
 - Bernie Nugent** – New Granddaughter
 - Carol Woodbury** – New member Chris Morin, Rising Star
 - Dr. Funk** – For Rising Star
 - Bill Glass** – For Rising Star, Northwestern Win
 - Mark from Chatham Rotary** – Upcoming Trivia Night and Upcoming Chatham Chili Night
 - Pat Armstrong** – Chris Morin new member, Rising Star and a leave early buck for Barry
 - Andy Taylor** – For Rising Star and Princeton Win
 - Pam Rideout** – Rising Star, Chris Morin, Guest Speaker
 - Hyannis Rotary** – Upcoming Taylor Swift Raffle
 - Jim Seymour** – Chris Morin, Rising Star, Station Avenue Reading
 - Mike Duffy** – Glad to be here
 - Jill Albright** – Chris Morin, Guest Speaker, DY School Concert, Glad to be home
 - Tomas Tolentino**– Rising Star, New member Chris Morin, DY School Concert, Station Avenue Reading

FOOD of the MONTH for April is

SPAGHETTIO'S

All cans collect will go to assist CAPE COD Brite Lights to provide weekend backpack bags of food for children in grades K-3
Cash or Checks are Welcomed and we will do the Shopping for you.

Saturday March 25 – Baker Square and Town Hall Gardens Spring Clean up

APRIL

Saturday April 8 – YPD 9/11 Memorial Spring Clean Up

Saturday April 22 – Yarmouth Annual Clean Up Day

JUNE

Saturday June 3 – Baker Square and Town Hall Garden Planting

Saturday June 17 Baker Square & Town Hall Mulching

SEPTEMBER

Saturday September 9 – YPD 9/11 Memorial Fall Cleanup

DECEMBER

Saturday December 16 – Wreaths Across America

What is a Pollinator Garden?

A pollinator garden is designed to contain plants to provide food and shelter to animals (bees, birds, butterflies, moths, wasps, bats, and small mammals) that pollinate plants that support the local ecosystem and food web. Pollinator gardens are often made up of native plants, but non-native plants pollinator gardens can still support local wildlife.

Why Pollinator Gardens Matter?

Pollinators—i.e., animals that move pollen from one flower to another—are in decline. Pollinator decline is attributed primarily to the loss of habitat and to the use of pesticides. Urbanization is occurring at an alarming rate; our green space is disappearing. Green space is often converted to land for crops, monoculture lawns, or planted with non-native plants that do not support or host local insects that carry out pollination.

With the rapid decline of bees, the widespread availability and use of pesticides, and the economics of past horticulture practices that prioritized a plant's desirability over its function, we are in a pollinator crisis. This is where pollinator gardens, and you, can help by planting a pollinator garden.

Seven Unsung Women in American History

1. Patsy Mink, House Representative

In 1964, Patsy Mink became the first woman of color to get elected to the United States Congress. Mink, a Japanese-American who served as a Hawaii representative, was elected four years before Shirley Chisholm famously became the first Black female congresswoman in New York.

2. Rosalind Franklin, molecular biologist

Rosalind Franklin studied the DNA molecule in English laboratories throughout the 1950s. She compiled data that would form part of the basis for the final helical model.

These findings were known to Jim Watson and Francis Crick, who would ultimately win the Nobel Prize for the discovery of the DNA molecule in 1962. Franklin was not credited for her unpublished, cautious initial studies, and the male-dominated field often treated her with patronizing disdain.

Watson, in fact, wrote in his 1968 book “The Double Helix”: “Momentarily I wondered how [Franklin] would look if she took off her glasses and did something novel with her hair.”

Franklin would go on to conduct groundbreaking research in RNA and polio before dying at age 37 of ovarian cancer.

3. Dr. Rev. Pauli Murray, civil rights activist

Dr. Rev. Pauli Murray played an extremely critical role in the Civil Rights Movement, but her name often gets lost in the shuffle.

In 1950,

Murray wrote the book “States' Laws on Race and Color,” which drew on sociological and legal evidence to combat “separate but equal” policies of the time. The book would become the basis of the Supreme Court case *Brown vs. Board of Education*, which fought and defeated segregation in schools in 1954. NAACP chief counsel Thurgood Marshall would call Murray’s book the “bible” of the Civil Rights Movement.

4. Nancy Lopez, professional golfer

Nancy Lopez was considered the best female golfer of the late 1970s and ‘80s. Lopez would become the only woman to win the Ladies Professional Golf Association’s prestigious Rookie of the Year, Player of the Year, and the Vare Trophy in the same season.

Ultimately, Lopez won 48 LPGA Tour events and was inducted into the World Golf Hall of Fame in 1987.

Golf is historically a rich, white, male sport. As a child, Lopez’s family wasn’t allowed to join her local country club in Roswell, New Mexico because of their Mexican heritage.

Lopez and her coach father had to travel 200 miles to Albuquerque to practice on a course. Her success and drive would pave the way for female golfers and for Latinx athletes for generations.

5. Sylvia Earle, environmentalist

Few individuals have communed with the ocean as much as Sylvia Earle, a marine biologist and explorer whose contributions have spanned decades.

Earle broke the women’s diving depth record in 1979, and would co-found two deep-sea exploration engineering companies. In 1990, she was appointed chief scientist at the National Oceanic and Atmospheric Administration, where she helped clean oil spills caused by the Persian Gulf war.

In 1998, Earle was named Time’s first Hero of the Planet. That same year, she was named a National Geographic explorer-in-residence, a title she has held since.

A Netflix documentary called [“Mission Blue”](#) details Earle’s life as well as her latest project of the same name. Mission Blue aims to protect 30 percent of the globe’s oceans by 2030.

6. Bessie Coleman, aviator

Bessie Coleman was the first African-American and Native American female pilot.

Ahead of her time in every way, Coleman famously refused to perform her impressive plane tricks - including the “loop the loop”—for segregated stadiums in the 1920s.

The Texas native, who was of mixed race, began her career as a manicurist.

Her brothers served in the military and regaled her with stories of France, where the women were allowed to become pilots. Inspired, Coleman moved to France and received her pilot’s license in 1921.

Wanting to buy her own plane and build her own flight school, Coleman earned money by touring the U.S. and Europe with airshows and lectures.

Once, she returned to her hometown in Texas and refused to perform until the managers created one singular entrance for Black and White audience members. They complied.

Coleman died in 1926 when her plane flipped over and she fell 3,000 feet out of the sky.

She was not widely recognized until after her death; Coleman was inducted into the National Aviation Hall of Fame in 2006.

7. Grace Hopper, computer programmer

Grace Hopper invented critical computer systems that we still use today, and she did it when the idea of computing was completely new. In the 1940s and 1950s, Hopper would help program the very first computers, which were used in the World War II effort, then later for businesses.

She invented one of the first linkers, which take all kinds of information and turns it into code that can run on a computer.

Hopper was the first programmer to put forth the idea that computers could speak a language based on English.

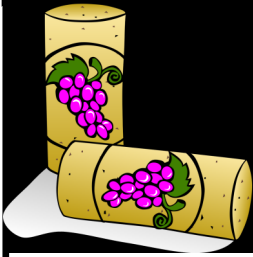

Her theory formed the basis of COBOL, a computing language used by business, finance, and administrative systems today.

Hopper served as one of few women Navy Admirals through 1986. She consulted on programming projects until her death in 1992.

Announcements

COVID & CORKS—Wine cork recycling benefits our earth’s sustainability. The Rotary Club of Yarmouth has over the last 18 months collected 14 pounds of corks which are sent to be recycled and then upcycled. Funded by the Widget Company, Cork Club is a sustainability initiative started in 2007. The goal of the Cork Club is to grow wine cork recycling and make donations to causes that protect our oceans and forests. The Cork Club donates to non-profit entities that clean plastic from our oceans, prevent deforestations and teach better ways to live in harmony with our environment. To date Cork Club has donated \$121,800 to these projects. For each natural cork, 2 cents is donated. Synthetic corks are recycled properly. So enjoy your wine and save the corks. All corks can be given to Jill Albright who will then ship them to Cork Club. **KEEP THOSE CORKS COMING!!!!**

MEALS ON WHEELS
 March 28 –Mike Riley & Dr. Tom Tomasik
 April 4 - Mike Duffy & Tom Deltz
 April 11—John Gilligan & Chantal Rice
 April 18—Dr. Bruce & Sally Bowles
 April 24 -Pat Armstrong & Bill Lemoine
 May 2 –Steve & Jill Albright
 May 9-Ken Knell & Phil Morris
 May 16—Rafi Chaprut & Tom Deltz
 May 23—Joe Potzka & Tom Tomasik
 May 30—Mike Riley & Ken Livingston
 Substitutes Steve Albright or Frank Mastromauro
 Meet at the Yarmouth Senior Ctr.
 528 Forest Rd., South Yarmouth, MA
 9:30 AM

March’s Birthdays

Happy Birthday!!!!

- 3/1 Rafi Chaprut

The Current Jackpot is:
\$124.00 plus this weeks Pot \$\$\$
You need to be there and buy a ticket to win!!!

CAPE COD BRITE LIGHTS

Cape Cod Brite Lights a501c(3) corporation that was started by our Rotary Club is now in it's third year. Its mission is "to help those in need on Cape Cod. "Our main focus to date has been to provide weekend backpacks of nutritional food for needy elementary students in the DY School System. A backpack of food consists of shelf stable milk (white & chocolate), juice carton, cereal, instant oatmeal, two proteins which could be a can of tuna, chicken, pasta, soup or beef stew, a cup of apple sauce, macaroni and cheese, Nutra grain fruit granola bar, cheese its, fruit snacks, pudding cup and 2 pieces of fruit. In addition, to give each student some activities to do during the holiday break we put a coloring book and crayons in each bag. We started with a total of 25 students but have grown to 45, an increase of over 80%. In addition, with the assistance of Interact we have started to provide the school nurse with feminine products for high school girls. In addition we will be providing students in need with bags of hygiene products during the upcoming school year. The Interact Club has applied for a District Grant to support this project.

How you can help:

First: Currently we have a board of directors of 11 members. Our bylaws allow us to have a maximum number of 13. If you would like to be a part of our leadership, please contact Steve Albright.

Second: We fill the backpacks and bags of food every Wednesday night at 5:30PM at the Yarmouth Food Pantry. If you would like to help one or two nights a month, again please contact Steve Albright. Currently we have enlisted the local Girl Scout Troop to help on the first Wednesday of each month and the DY Interact Club to help on the third Wednesday of each month. We are trying to make it a community organization where anybody can be a part of it.

Third: It costs \$200—\$250 yearly to support one child's backpack and although we don't have a total figure on the hygiene project, we know that the items provided are costly. You can make a donation to support these two projects by sending your check to:

Cape Cod Brite Lights—PO Box 286, West Yarmouth, MA 02673-0286

Or you can visit our website at Capecodbritelightsinc.com and make a contribution with your credit or debit card. In addition you can now sign up to make monthly donations to Brite Lights. A smaller amount each month makes it much easier. Visit our Website.

Fourth: Visit our website and learn more about us. Capecodbritelightsinc.com

Crutches For Africa

A Continuous Project by Yarmouth Rotary Club

Crutches for Africa is not a new project to our Rotary Club. We as a club have done collections for this great service and International project twice before. The first time we collected over 700 mobility devices and the second time we collected over 400 mobility devices. We are now hoping to set this up as an ongoing project. Mike Riley along with members of the International Committee are heading this project up but we would like all Yarmouth Rotarians to help out. Search for any of the desired items in your home, your extended families homes and your neighbors homes. Round up all of the devices and drop them off at the transfer station where we have a storage trailer to store them. They can be dropped off at the gate house just before you drop off your trash and recyclables. If you need help please give Mike Riley a call or send him a text to arrange pickup of your items. All of the items collected will be shipped to Africa to help disabled individuals gain mobility that they never have had.

Items that we are looking to collect include: Leg Braces; Crutches; Forearm Crutches; Walkers; Wheelchairs; Prosthetic Limbs; Baby Joggers and Strollers and Bike Trailers. No Commodes or any other type of Personal Hygiene Equipment.

(Also No Electric Wheelchairs or other types of devices.)

Leg Braces

Crutches

Forearm Crutches

Walkers

Wheelchairs

Prosthetic Limbs

Baby Joggers & Strollers

Bike Trailers

THE FOUR WAY TEST

Of the things we think, say or do

1. Is it the **TRUTH**?
2. Is it **FAIR** to all concerned?
3. Will it build **GOODWILL** and **BETTER FRIENDSHIPS**?
4. Will it be **BENEFICIAL** to all concerned?"
