

SPARK and Transition to the Workforce

SPARK is a community initiative of the Rotary Club of Harwich-Dennis. It helps teens and young adults overcome some of their challenges with everyday life. It sets the stage for them to be successful as they transition from high school to secondary education, certificate programs, and the workforce. SPARK is an effort to influence that success.

To support those teens and young adults preparing to enter the WORKFORCE, we provide services utilizing the knowledge and resources within our club. We will also partner with other organizations who may be better positioned to provide top level services to those young adults who seek assistance. Either way, SPARK can be the first stop in getting great guidance.

Harwich-Dennis Rotary Club
SPARK Mission

Creating Pathways of Success for Teens
& Young Adults on Cape Cod

SPARK Transition to the Workforce Resources

*Providing young adults with
the foundation to join the
Workforce and be successful
as they enter adulthood*

SPARK
Successfully Preparing
Amazing Resilient Kids

Influencing the next generation of the
workforce on Cape Cod

The SPARK Workforce services help with a roadmap to success as an adult.

Why It Matters

Workforce transition is about helping teens and young adults to move to the next stage. For SPARK, this means support for those who are completing their education or training and are now ready to begin a job and hopefully start a career. Transition is a period of change in a person's life. SPARK will help with the services identified here so that the transition is successful. It's not just a transition to the Workforce but a transition into adulthood.

Services

Wardrobe for Interviews or Unique to New Job

Responsibility to Work Schedules/Hours/Timeliness

Toolships

Basics to Financial Preparation

Access to Technology

Eligibility

Focused on Harwich & Dennis residents ages 16 – 24, with flexibility for teens and young adults in other Cape Cod communities when appropriate.
