Board meetings are the second Friday of each month following the Rotary meeting. Every member is welcome and encouraged to attend and participate in the business meeting of the club.

Rotary Foundation at Work!

I am now past the half-way mark of my Presidency, and that is hard-to-believe! It seems like only yesterday that my brother joined me at my Installation. Of course, that was in June and the weather outside shows us that we are long past the warm days of summer.

I received a letter acknowledging a donation that I made to The Rotary Foundation. Looking at the receipt, it didn't seem like a large amount until you view it coupled with all the other contributions to the Foundation.

We are all investors because there is no doubt that our money will be used wisely and have a much greater impact than just the dollar amount on our receipt. The folks at the Rotary Foundation should be proud that the strong financial oversight and innovate grant model have earned the Foundation the highest recognition from the Association of Fundraising Professionals naming it the world's outstanding Foundation for both 2016 as well as 2017.

2017 marked the 100th anniversary of the Rotary Foundation, started with a mere \$ 26.50 in 1917. Each month, the "Rotarian" magazine highlights many of the project undertaken around the world with Rotary dollars.

Take time to read about your funds at work around the world with the Rotary Foundation.

Mentors needed!

Each year our club sponsors a career mentoring day for Steubenville High School and Steubenville Catholic Central.

This year the event will be held Friday, February 23rd. Mentors and students are invited to our Rotary meeting before beginning their day.

This is one of the largest events we do all year. Laurel McDowel is asking for help in organizing and promoting the event. She is also looking for more mentors. If you are interested in helping in any capacity, or have questions, contact Laurel!

Wondering what you would do as a mentor? Monster.com suggests following these tips:

- **Be Prepared:** A solid plan will save not only your sanity but also that of the student you're hosting.
- **Think Conversation, Not Presentation:** You'll have a much more satisfying experience, as will your student, if you can have a conversation instead of just giving a presentation. You'll get the chance to teach the student about careers -- and learn something yourself about a different generation.
- **Share Your Shadow with Colleagues:** This gives the student a broader look at your organization, as well as its people and job functions.
- **Give the Student Information to Take Home:** You should include information you find useful in your own career, a personal business card, and information on organization's associated with your industry.

Rotary and Santa visit East Garfield.

Club members and Santa Claus visited preschool through fourth-grade at East Garfield Friday, December 15, for the annual Rotary Christmas party. Fun was had by all! Special thanks to Andrea Hale for organizing the party.

Did you know? Interact clubs bring together young people ages 12-18 to develop leadership skills while discovering the power of Service Above Self.

Our Interact Club at Steubenville High School exemplifies the Rotary Four-Way Test in every way. Students are frequently found with their wise leader, Scott Lane, volunteering around our community.

Last Christmas, the team decided to not only spend a significant amount of time volunteering at the Nutcracker Village, but they also wanted to help out a local student for Christmas. For the second year, club members chose a Harding Middle School student to surprise. The student was called to the office where he was met with packages-galore that his fellow students collected for him.

We are proud to have such an active club at Steubenville High School and hope to see the group grow each year. Please take the opportunity to meet our club members when they visit.
