

Journey from Red Badger to Regular Member

We sincerely welcome you to our club and want you to integrate quickly to make the most of your Rotary membership. Your mentor in particular will work with you to turn your red badge into our regular rectangular badge and during your first year of membership.

Following is a list of goals that we ask new members to complete to become a regular member of the club. They can be completed over the course of several months and are designed to help you understand how our club itself works, as well as how we work with our Rotary District (District 5340) and Rotary International to maximize our impact on our own community, and communities around the world. When you complete these goals please let the following people know:

Membership Chair: Dee House (deehouse@juno.com) **Secretary:** Donna Fipps (dfipps@aol.com)
