

Tonight's Program

Club Assembly Q1 2024

The purpose of a Club Assembly is to share information with Club members, identify issues, and discuss plans for the future. A club assembly is held once a quarter. This assembly is focused on club finances and other members'

concerns. Member participation is critical to the health and well-being of our club. The topics are the following:

- Updates on goals (Monika)
- Club financials (Matt)
- Perry Winston Scholarship Fund (Valerie, Jeff)
- Committee updates (committee chairs)

Phil Rusciollelli will deliver a brief update on training for Youth Protection. This is not part of the official assembly. Members can ask questions related to the topics presented. As this is an internal meeting, members are requested not to bring guests.

Rotary International 4-Way Test

1. Is it the **TRUTH**?
2. Is it **FAIR** to all concerned?
3. Will it build **GOODWILL** and **BETTER FRIENDSHIPS**?
4. Will it be **BENEFICIAL** to all concerned?

Week in Review

Chuck Reavis, former director of Washington Control Center FAA Leesburg

Our own Chuck Reavis shared past and present photographs of the FAA control center in Leesburg. The chart on the right shows the territory controlled by the center stretching north to just south of Philadelphia, down to the Outer Banks in the Carolinas, and west to Martinsburg, West Virginia. The center handles over 7000 daily flights and employs more than 450 flight controllers. The Leesburg Center is the third busiest in the country. Chuck headed up the center in 1987 following a major technical upgrade by the Harris Corporation. He also served as director for Honolulu, Hawaii, and the O'Hare Center in Chicago. When asked about a shortage of controllers, he said the FAA is certifying many more controllers and expects to make up the deficit in the near future. It takes between 3.5 and 4 years to train a controller.
