Fear of Friday the 13th — one of the most popular myths in science — is called paraskavedekatriaphobia as well as friggatriskaidekaphobia. Triskaidekaphobia is fear of the number 13.

The number 13 suffers from its position after 12, according to numerologists who consider the latter to be a complete number — 12 months in a year, 12 signs of the zodiac, 12 gods of Olympus, 12 labors of Hercules, 12 tribes of Israel, 12 apostles of Jesus, 12 days of Christmas and 12 eggs in a dozen.

#### Holiday Progressive Dinner

Our party will be a progressive dinner this year. Tonight at 6:00 PM. We will all start off Southern Flair Photography for appetizers.

After 45 minutes to an hour, we will then go progress to the dinner houses. After our meal we will meet up again at Samir's house for dessert.

We will be asking those who are attending to contribute \$5 per person to pay for the meat/veggies for the meals.
