Today's Program

Phased In

Kile Bateman / Joel Webb

In the State of Texas, 1500 youth "phase out" of foster care each year. Half of those will be homeless after their 18th birthday. About the same number will enter a life of drug or alcohol addiction. Many of the girls will end up pregnant before their 20th birthday. It has become such an epidemic that the prison systems of America base their future population on the number of youth who "phase out" of foster care.

The P.I. Project is a community transitional living program for emancipated foster youth. The goal of the PI project is to assist these young adults in learning basic life skills that will prepare them for independent living. PI will provide housing, education, medical care and life training through an 18 month program currently sponsored by the North Texas Dream Center. Through the combined partnership of the church, the community, and the State of Texas, the PI will embrace these youth who were never adopted to ensure that these young adults achieve self-sufficiency and stability. Finally, the P.I Project will provide the most vital and missing dynamic in the lives of these young adults – Family.

Kile Bateman is an inspiring leader. He has led numerous trips to disaster areas and projects around the world. His overwhelming passion is the impact his local church makes in the community. Kile and Patti have been the senior pastors of Evangel Temple in Wichita Falls, TX, for 13 years. They have two children, Luke and Naphtali. Please join me in a Warm Sunrise Rotary Welcome for Kile Bateman.

One day the Countrymen noticed that the Mountains were in labour; smoke came out of their summits, the earth was quaking at their feet, trees were crashing, and huge rocks were tumbling. They felt sure that something horrible was going to happen. They all gathered together in one place to see what terrible thing this could be. They waited and they waited, but nothing came. At last there was a still more violent earthquake, and a huge gap appeared in the side of the Mountains. They all fell down upon their knees and waited. At last, and at last, a teeny, tiny mouse poked its little head and bristles out of the gap and came running down towards them, and ever after they used to say:

"Much outcry, little outcome"
