What is SNAP?  
Special Needs  
Arranged  
Percussion is  
percussion lessons  
with a professional  
percussion  
instructor that has  
had extensive

training on kids and adults that have learning differences and challenges. All SNAP lessons are conducted under the guidance of an experienced, skilled therapist, Patricia Martinez M.S., CCC-SLP.

By working with a professional instructor and consulting therapist, the percussion student learns about music while working on communication and motor skills at the same time. Through the use of a variety of equipment such as hand drums, Boomwhackers, shakers, drum sticks, and small xylophones to help students improve in many different areas. We help students understand the importance of body awareness and proper posture. We use right and left hand exercises to improve mobility, strengthen muscles, and increase range of motion through a fun and engaging environment. Because percussion is a broad area of music, we have the ability to meet the needs of all persons with or without disabilities. We live by the motto, "If you can move and feel, you can do percussion."

Mikey Foster was born, raised and went to high school in El Paso. He has a BS in Music Business from UC Denver. Mikey works part time at The Right Step in Euless as a Licensed Chemical Dependency Counselor Intern. He teaches private drum lessons at his drum studio in Arlington, but SNAP is starting to grow into a full time job.

Mikey has three older sisters, a 13 year old son who started percussion this year in Arlington and a dog named Banksy. Please give a *Warm Sunrise Rotary Welcome* to Mikey Foster.
