for ending polio – a paralyzing, life-altering scourge on the verge of becoming the second human disease ever to be eliminated.

Rotary committed to raise \$50 million per year over the next three years, with every dollar to be matched with two additional dollars from the Gates Foundation. This expanded agreement will translate into \$450 million for polio eradication activities, including immunization and surveillance over the next three years. This critical funding helps ensure countries around the world remain polio-free and that polio is ended in the remaining three endemic countries: Afghanistan, Nigeria, and Pakistan.
