LAST WEEK'S PROGRAM

Artificial Intelligence

Tracey and Kendra Devlin

shared information aimed at demystify Artificial Intelligence. AI is often viewed with suspicion and confusion however, it is actually a data driven tool

designed to enhance productivity. AI is more and more a part of our everyday lives through the Apps we use. The AI market is predicted to exceed \$1.8 trillion by 2030 and over 82% of businesses will be using AI. The best way to remove the fear of AI is through education. Helpful uses include everything from task automation to giving directions through maps. AI is already being used in many industries including healthcare, finance, retail and customer service amongst others.
