

## THE FOUR-WAY TEST

- 1 Is it the TRUTH?
  - 2 Is it FAIR to all concerned?
  - 3 Will it build GOOD WILL & BETTER FRIENDSHIPS?
  - 4 Will it be BENEFICIAL to all concerned?
- (And... Is it FUN?)

## Application Received:

Becky Huner (Sponsor:

**John Stewart)**

## Trivia Q & A

Q: Only RI president that served two terms? A: The first one—Paul Harris!

## In-Person Attendees

COVID is far from gone. Larimer County gives us a waiver to meet with 50 or less, but it is contingent on us adhering to restrictions. Please keep masks on!

## Governor's Art Show

The show's sales goal was \$50K, but already (Oct 5) revenue is more than \$52K! Net proceeds are split 50/50 with Thompson Valley Club, and 1/3 of proceeds (both clubs) goes to Thompson Education Foundation's Homeless Assistance Fund.

## ANNOUNCEMENTS

**Brian Nienhaus (Member in Crisis):** Please keep **John Stewart** in your thoughts and prayers! Club's POC for communicating with John is Evan Patterson. After 3 weeks, John is still heavily sedated; pneumonia is waning; but he has a long road to recovery.

**Dick Bradsby (Teacher Recognition):** April Teacher of the Month (COVID-delayed) Jeny Laugel, a Kindergarten teacher from Ponderosa Elementary, was described by her nominator (Kailin Newlin, a TSD teacher coach) as someone who “loves children enough to create opportunities for them to learn from their mistakes!” | **(Kids Pak Update):** Currently, there is an opportunity for service: delivering food to schools; there is a special need for someone to ride with the EXODUS Truck. For foreseeable future, deliveries will occur on Wednesdays and/or Fridays depending on when schools are open.

## PROGRAM

“Working in Public Health During COVID” by Rebecca Hermann. Ms. Hermann, of Nederland, Colo., our own Rotary Global Grant Scholar, who just finished her master's degree in Control of Infectious Diseases, at LSHTM, University of London, UK, and who was a Fulbright Scholar for two years in Colombia, gleaned the following insights about the COVID-19 pandemic from her studies and her recent field work in contact tracing for Boulder County:

- Although not as contagious as other infectious diseases, COVID-19's “clustering” effect makes it spread very quickly in bars, churches, and college social events where safe behavior may be lax.
- COVID-19 is peculiarly insidious because of the superspreader phenomenon: a person or event that results in disease transmission to an unusually high number of people.
- People can become infectious two days before showing any symptoms, and they are thought to be most infectious during this time.
- Some people expel more viral particles than other people when they talk, sing, or shout.
- Dogs are increasingly being used to sniff out COVID-19 cases, with a 85-90% accuracy.
