Volunteers Needed!

Make a difference in the lives of 8th graders by helping them use the Four-Way Test to solve real life problems! Facilitators are needed on these dates:

- High Plains M.S. - Nov 6
- Walt Clark M.S. - Dec 2

See the email from **Dixie Schmatz** to sign-up!

ANNOUNCEMENTS

Carol Stark & Mary McCambridge

(Recognition): Carol & Mary honored one of our Loveland Rotarians who just achieved a higher level of giving to the Rotary Foundation - **Jim Kaylor**, who received his PH+2!

Jerry Westbrook (Field Trip): Don't forget the special tour of the Northern Water campus (200 Water Ave. Berthoud, CO), on Tue, Oct 22, starting at 1:30 PM. Feel free to bring spouses and other guests. No need to sign up ahead. Meet outside of Building A, which is the main building. The entrance is on the northeast corner of the building, and the parking lot is north of the entrance. An overflow parking lot is also located on the west end of the campus near Building H.

Moofie Miller (Thumbnail): One of our newest members, Moofie, shared her life story. Highlights: • Her early years: grew up in Denver... went to North High School... married *the kid down the street* (his name was John - and it still is!). • She

and John have 2 children and 2 grandchildren. • She had a 29-year career with the Loveland Housing Authority. • Nowadays, she enjoys her work for *Friends of the Loveland Public Library*. Welcome back, Moofie! (Moofie was previously in our club for 14 years.)

Co-Pres Bob (Thoughts & Prayers): **Dick Barton** has had a health setback after a recent surgery. He had some heart issues and is currently being treated at a cardiac telemetry unit. He's stable, alert, but cannot bear weight on his legs. He hopes to see us next year.

LAST WEEK'S PROGRAM

Mark Turnage, DarkOwl CEO, delivered a thought-provoking overview of cyber warfare. Here are just a few highlights: ① Close proximity is not needed, and weapons can only be used once. ② Precise targeting limits loss of civilian life. ③ Implications of private actors getting involved (Ukraine-Russia war - 200,000 hackers!) are not understood. ④ Lower cost than traditional war makes it easier for countries. ⑤ So far, cyber hasn't been decisive. ⑥ Can its use be governed?
